

Wall-mount Air-Conditioner Digital Inverter 12,000 BTU/Hr

Price: Rs. 185,000.00 (Original Price: Rs. 213,999.00 - Save Rs. 28,999.00)

Features

- **Automatic comfort (AI Auto Cooling)** Experience an intelligent way of living with AI Auto Cooling. It automatically optimizes the various modes by analyzing the room conditions and usage patterns. Based on your preferred temperature, it automatically switches to the most appropriate mode to maintain the optimal conditions.

A Wi-Fi connection and a Samsung account are required. Stores user data, preferences and usage patterns to suggest the most useful options. When a Wi-Fi connection is not available, the preferred mode is based on the result of big data analysis.

- **Intelligent energy use savings (AI Energy Mode)** AI analyzes your usage patterns and external conditions, and reduces the air conditioner's energy use. It controls the compressor's frequency, reducing energy consumption by up to 30%. And AI Energy mode can save energy by switching devices to Energy Saving mode at a pre-set threshold.

Based on internal testing on the AR07D9181HZ3 model. The compressor's indicated frequency is reduced by 27% using the compressor's lowest output control, which is reduced from the existing 15rps to 12rps (may differ by model). The testing was conducted in Samsung's 132m² residential environment laboratory at a temperature of 35°C/24°C (dry bulb/wet bulb, KS C 9306: air conditioner). Requires the use of the SmartThings App and a Samsung account. Actual savings may vary by usage patterns and environment.

- **Intelligently optimized control (AI Digital Inverter Control)** Cool quickly, quietly and efficiently. Using AI it analyzes your usage patterns, indoor and outdoor conditions, and continuously senses the air conditioner's operating status. It can then precisely control the compressor's frequency to maintain the preferred temperature and reduce energy use.

A Wi-Fi connection is required. Only available when AI Auto Cooling mode is selected.

- **Cools you faster (Fast Cooling)** Cool rooms rapidly. The twin compressor works stably at any speed, as its two cylinders rotate alternately. The BLDC motor's Neodymium magnets are 3x stronger than normal, which generates powerful and rapid rotation. So it cools the air 43% faster and disperses cool air farther and wider.

Based on internal testing on the AR12TXCAAWKEU model compared with the Samsung conventional AQ12EASER model, measuring the time taken to reduce the room temperature from 33°C to 25°C. Based on internal testing on the AR24TXFCAWKNEU model.

- **Save energy cooling (Energy Saving)** Save energy but stay comfortably cool with highly energy-efficient Digital Inverter Boost technology. It maintains the desired temperature without frequently turning off and on, so there is less fluctuation. And it enhances its power usage when cooling, which reduces energy use by up to 73%.

Based on internal testing on the AR09TXCAAWKNEU model compared with the Samsung conventional model AQ09TSLXEA.

- **Get warm faster (Fast Heating)** Heat rooms rapidly from corner to corner, so you are feel comfortable whenever you want and wherever you are. When activated, the Fast Heating mode quickly distributes warm air across an entire room. Its unique design means it reaches the desired temperature faster than conventional models.

Based on internal testing of the AR18AX4ZAWK model using Fast Mode compared with the conventional AQ12EASER model, measuring the time taken to increase the room temperature from 9°C to 20°C.

- **Less noise at home (Low Noise)** Cool your living spaces with less noise. The twin compressor creates 20 times less vibration than a single compressor. Samsung's patented Twin Tube Muffler also reduces refrigerant flow noise. And its WindFree™ operation reduces ambient noise, so there is a 40% reduction in detectable sound.

Based on internal testing. Generates a 40% reduction in the 1kHz noise band, which is the weakest level of sound that humans are sensitive to.

- **Lasting peace of mind (10 year Warranty)** Enjoy peace of mind knowing that your air conditioner will deliver a long-lasting performance – guaranteed! Its inverter compressor is designed to work efficiently for a long time. And this is backed up by a 10 year warranty, so you can be sure that you will enjoy a hassle-free performance.

The 10 year parts warranty is only applicable to the inverter compressor.

- **Fits in many places (New Slim Outdoor Units)** Make good use of valuable space and save energy. The volume of the slim outdoor unit has been reduced by 20% by utilizing compact core components, which also improve its energy efficiency by 20%. And its simplified exterior eliminates painting and reduces the use of screws when installing.

85L model only. Based on internal testing compared to Samsung's existing outdoor unit.

- **Zero ODP & lower GWP (R32 Refrigerant)** R32 refrigerant helps conserve the ozone layer and has less impact on global warming. It has zero Ozone Depletion Potential (ODP) and a lower Global Warming Potential (GWP) compared to conventional R22 or R410A refrigerants that are commonly used.

GWP by refrigerant: R32 = 675, R22 = 1810, R410A = 2090.

- **Get close. Turn on. (Quick Remote)** Control the room temperature quickly and easily on a Galaxy smartphone. When you get close to the air conditioner, a Quick Remote pops up on your phone to let you control its priority features, like on/off and start/stop. So don't need to waste time finding the actual remote control.

Only available when using Samsung Galaxy smartphones. A Wi-Fi connection and a Samsung account are required. The air conditioner must be connected to the Wi-Fi network and registered in the SmartThings App. Only certain models of air conditioners manufactured in 2024 or later are supported. The automatic activation time varies depending on the user environment. The controllable functions of compatible devices may vary depending on their specification or the usage environment, especially B2B products and some special models manufactured in 2024.

- **Visual control of space (Map View)** Monitor and control all your air conditioners wherever you are. Using Map View in the SmartThings App, you can see a 3D map of your home and smart devices. You can change settings, run preset routines and monitor the air quality, room temperature and energy consumption of your air conditioner.

Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required.

- **Simply smart control (SmartThings & Voice Control)** Control the temperature effortlessly. Using the SmartThings App you can remotely control and monitor it with just a touch. You can also control it with your voice using a voice assistant, such as Samsung Bixby, Amazon Alexa or Google Assistant. It even suggests the best settings.

Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required. Bixby is Samsung's brand of Internet of Things (IoT) voice assistant. Bixby service availability may vary depending on country. A Samsung account log-in and data network connection are required. Amazon, Alexa and all related logos are trademarks of Amazon.Com, Inc. Google is a trademark of Google LLC.

- **Walk in. Feel cool. (Welcome Cooling & Away Care)** Use your air conditioner efficiently and effectively when you arrive home or go out. SmartThings Welcome & Away Care alerts when you get close to home and reminds you to turn on the air conditioner. And when you leave it will notify you if there is an air conditioner that is still working.

Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required. The Welcome & Away Care (energy saving notification) function uses smartphone Geofencing and GPS to determine whether you are close to your personal set location, and its performance may vary depending on the actual usage environment and the cooling function of each model.

- **Automatic evolution (Smart Forward)** Keep your air conditioner up-to-date with the latest technology and features, so it works just like the latest products. Smart Forward automatically installs new software in order to upgrade the operating system and security, enhance or add new functions and help improve the SmartThings App.

The availability of Smart Forward upgrades may vary by product and region. Software is downloaded "over the network", so appliances must have a Wi-Fi connection to the Internet.

- **Smart management (SmartThings Home Care)** Take care of your air conditioner easily. SmartThings Home Care uses artificial intelligence (AI) to detect abnormal behavior, so that you can address maintenance needs without an on-site service. AI diagnosis checks its status and displays information about any issues with major components.

Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required. Service callouts will occasionally be required and may incur extra repair costs.

- **Always feel comfortable (SmartThings Air Care)** Maintain a comfortable environment in your home. SmartThings Air Care automatically controls purifying and cooling devices, based on the outdoor and indoor air quality and the temperature and humidity in each room. So it enhances the cleanliness of your air and keeps you feeling comfortable.

Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required. SmartThings Air Care feature may vary by region.

- **Look after your pets (SmartThings Pet Care)** Care for your pets even when you are not home. SmartThings Pet Care lets you adjust the temperature in your home to keep pets comfortable. You can turn the air conditioner on and off at a certain temperature or a set time and customize the temperature for long-haired and short-haired breeds.

Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required.

- **Maintain hygienically (Freeze Wash)** Keep the air conditioner clean and hygienic. Freeze Wash quickly freezes and then defrosts the Heat Exchanger. So it is washed in water, which removes dirt and contamination, including 95% of microorganisms. Finally, it dries up any moisture. And it alerts you when it is time for a clean.

The Freeze Wash function is only available on certain WindFree™ models. Based on internal testing in accordance with Samsung protocols. Results provided to and interpreted by Intertek. Only available on certain models that have Wi-Fi connectivity.

- **Stays fresh & hygienic (3-step Auto Clean)** Keep the air conditioner hygienic by doing nothing! After it has been working, an Auto Clean function automatically dries the Heat Exchanger using a 3-step process. It removes moisture inside by blowing air for between 10 to 30 minutes. So it helps prevent the buildup of bacteria and odors.

Models without WindFree™ mode will use a 2-step process (3 minutes of auto air flow and 7 minutes of high air flow). Only WindFree™ models will check the internal humidity. The Auto Clean time will vary depending on the condition of the air conditioner.

- **Easy to clean filter (Easy Filter)** Keep your air conditioner working efficiently with little effort. Unlike conventional filters, the Easy Filter is located outside, on the top, so it can easily be taken out and cleaned. It is made of a dense mesh, so it is very effective at capturing dust, which keeps the Heat Exchanger clean.

Tested in Korea test lab (FITI). Data has been measured under specific testing conditions and may vary depending on environmental factors and individual use.

- **Convenient cleaning (Easy Open Panel)** Keep the air conditioner clean both inside and outside. The Easy Open Panel can be quickly separated from the front of the air conditioner without any separate tools, which makes it easy to clean the interior as well as the exterior of the air conditioner.
- **Lasting efficiency (DuraFin)** Enhance the performance and efficiency of the Heat Exchanger. The DuraFin is made of a denser material and thicker in design and its improved coating has more corrosion resistance than previous models. So it passes the accelerated Sea Water Acetic Acid Test (SWAAT) for corrosion over 100 days.

Based on internal testing on the AR13TYHYBWKNST model compared with the Samsung conventional model AR18JRFNFWK.

- **Lasting protection (DuraFin+)** Stay comfortably cool for a long time. The DuraFin+ is made of corrosion-resistant material to protect the condenser from rusting, which helps to maintain the performance and efficiency of the Heat Exchanger. Its superb corrosion-resistance was proven in a Salt Spray Test (SST) for 500 hours.

Based on internal testing by applying pressure (42kgf/cm²) using nitrogen for 1 minute after a Salt Spray Test (SST) of over 500 hours, in accordance with ASTM B117 and KS D(ISO 9227).

- **Long-lasting cooling (DuraFin Ultra)** Protect the Heat Exchanger to maintain its performance. The DuraFin Ultra has anti-corrosive and hydrophilic layers that prevent rust from forming on the Heat Exchanger. Its superb corrosion resistance was proven in a Salt Spray Test (SST) of over 3,000 hours with no refrigerant leakage.

Based on internal testing by applying pressure (42kgf/cm²) using nitrogen for 1 minute after a Salt Spray Test (SST) of over 3,000 hours, in accordance with ASTM B117 (ISO 9227).

- **Stable and durable (Triple Protector Plus)** Enjoy a long-lasting performance in challenging environments. Triple Protector Plus technology prevents damage from power surges and fluctuating electrical currents, without a separate voltage stabilizer. Its anti-corrosion coating also protects the condenser and cabinet in harsh conditions.

Based on internal testing on the AR12TXEAAWKNEU model compared with the Samsung conventional model AS18FCMID.

- **Corrosion-resistant (Coated Copper Tube)** Enjoy a long-lasting and consistent performance. The Heat Exchanger's coated copper tubes have 7.5x better corrosion resistance, protecting it against harmful environmental conditions, like dust and pollutants. So the indoor unit will work reliably for a long time and needs less maintenance.

Based on testing by TUV Rheinland in accordance with the ASTM G85 Annex A3 modified-SWAAT test, compared to the non-coated copper tube. The level of corrosion resistance is based on the reduction rate of the copper tube's thickness.

- **Stay cool when hot (Cool Even at 58°C)** Stay cool in extremely hot weather. The Samsung air conditioner will continue cooling inside your home even when the outside temperature reaches up to 58°C (136°F). So you can feel comfortable all year round, even in the scorching summer heat.

Based on internal testing and certified by Intertek.

- **Cools every corner (4-way Swing)** Create a comfortable environment with an even temperature in every corner of a room. The 4-way Swing function lets you remotely control the air direction or automatically expels air in every direction. As well as the auto up-down swing function it also has an auto left-right swing function.
- **Works on any voltage (Power Volt)** Stop worrying about the electrical voltage in your home. It does not matter whether you use 127V or 220V power outlets – or even both! The air conditioner has a Power Volt function and can be safely used on either voltage, without the extra time and cost of installing a voltage transformer.

Only available on certain models. Operates safely using either 127V or 220V power outlets.

- **Works non-stop (Auto Ampere Control+)** Stay comfortable if the power supply is limited. Auto Ampere Control+ starts operating in Ampere Control mode when the electrical power is limited to ensure continuous cooling or heating. It can be remotely controlled, adjusted over 6 levels and will control all indoor units on one floor.

A Wireless Auto Ampere Control+ kit is required to use this function. When using the Auto Ampere Control+ mode, the cooling and heating performance may be weakened so that the operating current does not exceed the set current.

- **Easy energy control (5-step Convertible Control)** Save energy, but still stay cool. The 5-step Convertible Cooling lets you adjust the compressor operation in 5 steps, from 40% to 120%, to suit your changing cooling needs, using the minimal amount of energy. You can also use it to reduce your daily energy consumption whenever you want.

Only available when the air conditioner is in Cooling mode, but not in WindFree™ mode. Based on internal testing on the AR24AY4YATAN compared with Samsung conventional models.

- **Stylishly modern (The Black Edition)** Give your home a real touch of style with an elegantly modern look that reflects the current trend for dark colors. "The Black Edition" finish is a deep dark color that blends in harmoniously with the luxurious dark tones of modern interiors and will look good in almost any room in your house.

"The Black Edition" model only.

Specifications

Overview

- **Capacity Cooling Btu Hr:** 12000 Btu/hr
- **Capacity Cooling Kw:** 3.52 kW
- **Eer Cooling W W:** 3.23 W/W
- **Net Dimension Outdoor Wxhxd Mm:** 710x540x220 mm

Capacity

- **Capacity Cooling Btu Hr:** 12000 Btu/hr
- **Capacity Heating Btu Hr:** 13000 Btu/hr
- **Capacity Cooling Min Max Btu Hr:** 3580 - 13650 Btu/hr
- **Capacity Heating Min Max Btu Hr:** 2220 - 17000 Btu/hr
- **Capacity Cooling Kw:** 3.52 kW
- **Capacity Heating Kw:** 3.81 kW
- **Capacity Cooling Min Max Kw:** 1.05 - 4 kW
- **Capacity Heating Min Max Kw:** 0.65 - 4.98 kW

Energy Efficiency

- **Eer Cooling W W:** 3.23 W/W
- **Cop Heating W W:** 3.42 W/W
- **Eer Cooling Btu Hw:** 11.01 Btu/hW
- **Cop Heating Btu Hw:** 11.66 Btu/hW

Noise Level

- **Noise Level Indoor High Low Dba:** 41/21 dBA
- **Noise Level Outdoor High Low Dba:** 49 dBA

Electrical Data

- **Power Source V Hz:** 1 / 220-240 / 50
- **Power Consumption Cooling W:** 1090 W
- **Power Consumption Heating W:** 1115 W
- **Operating Current Cooling A:** 5.0 A
- **Operating Current Heating A:** 5.0 A

Physical Specification

- **Gross Dimension Indoor Wxhxd Mm:** 880x290x375 mm
- **Gross Dimension Outdoor Wxhxd Mm:** 834x620x323 mm
- **Net Dimension Indoor Wxhxd Mm:** 820x299x215 mm
- **Net Dimension Outdoor Wxhxd Mm:** 710x540x220 mm
- **Gross Weight Indoor Kg:** 10.1 kg
- **Gross Weight Outdoor Kg:** 27.7 kg
- **Net Weight Indoor Kg:** 8.7 kg
- **Net Weight Outdoor Kg:** 24.3 kg
- **Loading Quantity 20 40 40Hft Without Pipe:** 105 / 212 / 252

Technical Information

- **Piping Length Max M:** 15 m
- **Piping Height Max M:** 8 m
- **Svc Valve Liquid Odxl:** 6.35
- **Svc Valve Gas Odxl:** 9.52
- **Moisture Removal L Hr:** 1.40 l/hr
- **Air Circulation Cooling M3 Min:** 10.50 m³/min
- **Refrigerant Type:** R32
- **Refrigerant Charging Kg:** 0.7 kg
- **Refrigerant Charging Tco2E:** 0.47 tCO₂e
- **Low Ambient Cooling C:** -10~52 °C
- **Low Ambient Heating C:** -15~24 °C
- **Outdoor Unit Compressor Type:** BLDC
- **Outdoor Unit Anti Corrosion Fin:** Yes

Air Flow

- **Windfree Cooling:** No
- **Air Direction Control Up Down:** Auto
- **Air Direction Control Left Right:** Auto
- **Air Flow Control Step Cool Fan:** 5/4

Air Purification

- **Pm 1 0 Filter:** No
- **Tri Care Filter:** No
- **4 In 1 Care Filter:** No
- **Easy Filter Plus Anti Bacteria:** No
- **Copper Anti Bacterial Filter:** Yes

- **Auto Clean Self Cleaning:** Yes

Convenience

- **Smartthings:** Yes
- **Ai Auto Cooling:** Yes
- **Motion Detect Sensor:** No
- **Freeze Wash:** No
- **Filter Cleaning Indicator:** Yes
- **Indoor Temp Display:** Yes
- **Display On Off:** Yes
- **Beep On Off:** Yes
- **24 Hour Timer:** Yes
- **Auto Changeover:** Yes
- **Auto Restart:** Yes

Operating Mode

- **Auto Mode:** Yes
- **Fast Cool:** Yes
- **Dry Comfort:** No
- **Good Sleep:** Yes
- **Eco Mode:** Yes
- **Dehumidification:** Yes
- **Fan Mode:** Yes
- **Quiet:** Yes

Smart

- **Wifi Embedded:** Yes
- **App Connectivity:** SmartThings App Support Yes

Reviews

1. I've been using this for a month and the AI Auto Cooling is amazing; I just leave it on, and it adjusts the compressor automatically. Fast cooling really works well, especially during the peak of the Lahore heat. Highly recommend! (5 stars, posted 3 weeks ago)
2. Excellent energy efficiency. My electricity bill definitely dropped compared to my old non-inverter. The unit feels very premium and solid, and I'm glad it has the Triple Protector Plus for voltage fluctuation built-in. (4 stars, posted 2 months ago)
3. The AC itself is great, very quiet, and the filter is super easy to clean since it's right on top. However, setting up the SmartThings app on my phone took way longer than expected, and sometimes the Wi-Fi connection drops. (3 stars, posted 5 months ago)
