

WA17CK6745BDRT with Ecobubble™, 17 Kg

Price: Rs. 209,999.00

Features

- **Powerful Wash, More Savings (Ecobubble™)** Wash powerfully and efficiently. Ecobubble™ with DIT gets clothes clean using up to 60% less energy and up to 14% less water. BubbleStorm™ helps detergent penetrate fabric 2.5x faster and gives up to 20% better fabric care. Dual Storm™ creates a vortex of water current with more effective wash.
- **Durable & efficient motor (Digital Inverter Technology)** Enjoy efficiency and long-lasting performance. Digital Inverter Technology utilizes strong magnets for a quiet and powerful performance with energy efficiency. It also offers the industry's longest warranty of 10 years on the motor.

As at April 2026. The 10 year parts warranty is only applicable to the inverter motor.

- **Wash in 31 minutes (Super Speed)** Cut your normal laundry time by up to 56% and get clothes thoroughly clean. Super Speed washes a load in just 31 minutes. It ensures powerful cleaning and reduces water usage by 38%. In addition, it shortens the rinsing time by shooting powerful jets of water and accelerates the spin speed.

A Normal wash can be completed in as little as 31 minutes using Super Speed at the default settings with a 3kg load, compared to 71 minutes in a Samsung washing machine without Super Speed. Water consumption is reduced from 165 liters to 102 liters.

- **Long-lasting fragrance (Deep Softener)** Ensure your clothes smell sweeter for longer. The Deep Softener option maximizes the effect of softener by optimizing the rinsing algorithm. So the fragrance lasts longer with the same amount of softener. This reduces waste, as you don't need to exceed the normal dosage or add a soaking course.

Based on internal testing, which showed a 20% increase in the softener absorption rate compared to a conventional washing machine.

- **Powerful filtration (Magic Filter)** Keep unsightly speckles off your whites and darks, and protect the drainage from getting clogged up. A Magic Filter with a dual mesh, at the front and back, effectively gathers the lint, fluff and particles that come out of your laundry. And it is easy to empty out the filter, as it opens 180°.
- **Intensive cleaning (Intensive Wash)** Get clothes spotlessly clean, even if they are really dirty. An Intensive Wash can be used in any course to remove stubborn stains, like blood, tea, wine, make-up or grass. It quickly pre-mixes detergent and helps water to penetrate deep into the fabric. So dirt is removed more effectively.

Available in all courses, except for the Quick Cycle and Delicate Cycle. Compared to normal cycle.

- **Keeps the tub clean (Eco Tub Clean)** Keep your top load washer fresh and hygienically clean, while being eco-friendly and saving money. The Eco Tub Clean course removes dirt and up to 95% of bacteria

that can build-up in the tub, without using harsh or costly detergent. And it notifies you automatically when it needs cleaning.

Eliminates 95% of *Pseudomonas aeruginosa* from the surface of a tub. Based on the results from the tests performed by Intertek engineers in accordance with the test protocols provided by Samsung: equip a tub polluted with bacteria into the machine, run the Eco Tub Clean cycle and then compare the number of viable bacteria before and after the cycle. The Eco Tub Clean function should be used with no laundry inside the tub. Individual results may vary depending on the actual usage conditions. Recommended for use every one or two months, when an alert icon turns on.

- **Easy closing door (Soft Closing Door)** Avoid being frightened by unexpected bangs! The Soft Closing Door shuts safely, gently and silently, as a damper automatically slows its movement. A tempered glass window also lets you view your washing without lifting the lid. And it is durable and strong, so it won't get scratched or damaged.

Specifications

Overview

- **Washing Capacity Kg:** 17.0 kg
- **Drum Type:** 2nd Diamond
- **Pulsator:** PP Dual Storm
- **Physical Specification Wxhxd Mm:** 637 x 1068 x 701 mm
- **Net Weight Kg:** 45 kg

Washing Capacity

- **Washing Capacity Kg:** 17.0 kg

Design

- **Body Color:** Versailles Gray
- **Door:** Black Caviar
- **Panel Display:** LED

Feature

- **Eco Bubble:** Yes
- **Bubble Storm:** Yes
- **Speed Spray:** Yes

Physical Specification

- **Net Dimension Wxhxd Mm:** 637 x 1068 x 701 mm
- **Net Weight Kg:** 45 kg
- **Gross Dimension Wxhxd Mm:** 705 x 1136 x 748 mm
- **Gross Weight Kg:** 49 kg

Reviews

1. With a massive 17kg capacity, this machine easily handles our heavy winter blankets and the daily laundry for a big family. The Super Speed cycle is a total lifesaver when I need clothes washed quickly, finishing a normal load in just about half an hour without sacrificing cleanliness. (5 stars, posted 3 weeks ago)
2. I'm really impressed with the Deep Softener feature—the clothes actually retain a fresh scent for days, even after hanging them out to dry in the dusty Lahore air. The soft-closing glass lid is also a very premium touch since it never slams shut, and the Magic Filters are incredibly easy to pop out and clean. (5 stars, posted 1 month ago)
3. Great top-load washer overall. The Ecobubble technology combined with the Intensive Wash setting does an amazing job removing stubborn stains from the kids' school uniforms. My only minor issue is that it is a very large machine, so make sure you measure your laundry space before buying! (4 stars, posted 2 months ago)
