Features

- **Fine-tuned colors for a vibrant, lifelike picture (PurColor)** PurColor expresses the content you watch in vivid colors. It enables the TV to express a huge range of colors for optimal picture performance that translates into an immersive viewing experience.
- **Watch your favorite content in 4K (4K Upscaling)** Powerful 4K upscaling ensures you get up to 4K resolution for the content you love.

Viewing experience may vary according to types of content and format. 4K upscaling may not apply to PC connection and Game Mode.

- **Upscale your entertainment with Samsung Tizen OS (Samsung Tizen OS)** Get more out of your TV with the latest apps & services on Samsung Tizen OS. Enjoy free live TV channels and thousands of movies with Samsung TV Plus, and seamless cloud gaming with Gaming Hub. You can even manage your daily activities with Daily+ and control your smart devices from your TV with SmartThings.

Content and service may vary by region and are subject to change without notice. Agreement to Smart Hub Terms and Conditions and Privacy Policy is required before use. Some contents and services require registration and subscription. Requires Samsung account to access the full range of Samsung Tizen OS features including the smart TV features and apps. If you choose not to login-in, you will only be able to connect to terrestrial TV and external devices. You may need a separate device to create a Samsung account.

- **TV and soundbar orchestrated in perfect harmony (Q-Symphony)** Surround yourself with sound from your TV and Soundbar orchestrated in harmony. Q-Symphony technology allows TV and soundbar speakers to operate simultaneously for a better surround sound effect, without muting the TV speakers.

Check for Q-Symphony compatibility on soundbar product specifications. Soundbar sold separately.

- **Feel every color as it was intended in powerful 4K (Crystal Processor 4K)** Crystal Processor 4K lets the true colors of shows and movies shine with powerful upscaling technology, so you get up to 4K resolution for the content you love.

Viewing experience may vary according to types of content and format. Upscaling may not apply to PC connection and Game Mode.

- **Enhanced sense of depth and color (Contrast Enhancer)** Contrast Enhancer dynamically adjusts your screen's contrast, resulting in an enhanced sense of depth and color when you watch content.
- **Better contrast with rich darks and bright lights (HDR)** High Dynamic Range increases the ratio between the lightest and the darkest regions in a scene, so you can enjoy an enormous spectrum of colors and visual detail, in both bright and dark scenes.
- **Experience improved picture clarity with smooth motions (Motion Xcelerator)** Experience a clear picture as Motion Xcelerator automatically estimates and predicts the movement between frames to

improve the smoothness of your screen's motion.

- **Faster, smoother, low input lag gameplay (Auto Low Latency Mode / ALLM)** Auto Low Latency Mode sets optimal latency settings for your games automatically, allowing for smooth gaming and reactions to your commands.

Low input lag is measured based on internal testing conditions and it is subject to change according to game setting or specific conditions.

- **Immersive virtual sound that tracks the action (OTS Lite)** 3D surround sound with our virtual top channel audio allows you to be immersed in the audio experience.
- **Enjoy sound optimized to your content (Adaptive Sound)** Adaptive Sound has audio scenic intelligence that optimizes sound based on real-time scene analysis by content type.
- **Manage your daily activities and lifestyle more easily through Samsung Tizen OS (Samsung Daily+)** Through Samsung Tizen OS's open app ecosystem, Daily+ enables you to easily manage your daily activities and lifestyle from the comfort of your TV. Daily+ includes apps and services like SmartThings, Samsung Health, Workspace and more.

Samsung is not responsible for any third-party services, and is not liable for any damages or losses caused by any third-party services. Available service and the UI are subject to change without notice.

- **Do the SmartThings! (SmartThings)** Optimize your home devices into a smart lifestyle tailored to your needs. Enhanced with our built-in SmartThings hub, you can enjoy a customized smart home with various SmartThings-compatible devices that simplify your day-to-day.

Available technology, functions and features may vary by country, service provider, network environment or product, and are subject to change without notice. Requires a Wi-Fi, Bluetooth or other wireless network connection and login to Samsung account. Connected devices are sold separately. Use of calm technology requires agreement to both SmartThings' and the auto registered device's privacy notices. UI is subject to change without prior notice.

- **Your TV as the control center of your home and IoT devices (3D Map View)** Better manage your home by intuitively monitoring and controlling your home appliances and IoT devices from a 3D map of your house. Easily view and get notifications on the status of your smart devices on your TV screen.

Image is simulated and for illustration purposes only. UI is subject to change without prior notice.

- **Work and learn from home (Workspace)** Access your PC, laptop and mobile devices easily and seamlessly on your screen. Now you can work and study straight from your TV.

Compatible with certain PC and mobile devices. Easy Connection application is available on PCs running Windows 10 OS and above. Samsung DeX is supported on selected Galaxy, Note, and Tab devices. Most functions of Workspace can be used by connecting the keyboard and mouse to the TV. Requires Samsung account.

- **More screen, less bezel (Boundless Screen)** Samsung TV's sleek and elegant design draws you into the pure picture. Crafted with a minimalistic style with a boundless design, your screen looks stunning in every angle.

- **Adjust your TV without spatial constraints (Adjustable Stand)** Get an optimal viewing experience by easily adjusting the height and width of your TV's Adjustable Stand. It's also just the stand for neatly fitting your Soundbar underneath.

Width adjustment feature available with DU7000 55" models and above only.

- **Your privacy. Secured. (Samsung Knox Security)** Your privacy is now secured on Samsung TVs. Your sensitive data such as pin codes or passwords are protected by multiple layers of software and hardware. Also, Samsung Knox Security secures the home IoT devices connected to your TV and automatically blocks execution of unauthorized malicious apps or access to phishing sites. Lastly, Samsung's dedicated security team helps keep your TV safe with regular updates.

Secured by Knox applies to Samsung TVs powered by Tizen, launched since 2015. Security software update is guaranteed for at least three years from product launch. Latest software update is required.

- **Saves energy with intelligent analysis (AI Energy Mode)** Energy saving is made easy with SmartThings. By turning on AI Energy Mode, your TV auto-detects surrounding light levels and analyzes usage behaviors to adjust the brightness, which helps in reducing overall energy consumption. It also analyzes TV content scene-by-scene to subtly adjust brightness where possible, to cut down on energy consumption.

Energy saving rate may vary by regions, models, sizes, viewing conditions or types of content. Products shipped in Eco Mode have some AI Energy Mode functions enabled by default, so energy saving levels by turning on AI Energy Mode may appear lower compared to Standard Mode. AI Energy Mode does not work with Game Mode. Energy savings based on internal test results and may vary depending on content being displayed and surrounding brightness levels.

Reviews

1. Absolutely love the 4K upscaling on this TV. Even standard HD broadcasts look incredibly crisp, and the colors really pop thanks to the PurColor feature. I plugged in my gaming console, and the Auto Low Latency Mode (ALLM) kicked in immediately—super smooth gameplay with zero noticeable lag. (5 stars, posted a month ago)
2. Great value for a 43-inch 4K TV. The Tizen OS is very responsive and having the SmartThings hub built-in makes it super easy to control my smart lights straight from the screen. The built-in sound is decent, but I highly recommend pairing it with a Samsung soundbar to use the Q-Symphony feature for a true home theater feel. (4 stars, posted 3 months ago)
3. The almost bezel-less design looks fantastic mounted on the wall in my bedroom. I also frequently use the Workspace feature to mirror my laptop when working from home, which is a great bonus. The only minor downside is that the standard remote feels a bit basic, but the TV itself is excellent. (4 stars, posted 2 weeks ago)
