

Top Mounted Freezer SpaceMax 348L

Price: Rs. 210,999.00 (Original Price: Rs. 244,999.00 - Save Rs. 34,000.00)

Features

- **Save your energy intelligently (SmartThings AI Energy Mode)** Monitor and proactively save energy. AI Energy Mode analyzes your refrigerator usage patterns and estimates power consumption, based on AI technology. If the estimated electricity bill exceeds your preset target, it recommends you activate the Saving mode to reduce energy use by up to 7%. Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required. Available for specific models through a Wi-Fi update. Energy usage is reduced by optimizing the compressor speed and operation and adjusting the fridge temperature. Results are based on internal testing and may vary depending on the usage condition and patterns.
- **Twice more freshness (Optimal Fresh+)** Ensure that food stays fresh for twice as long. The Optimal Fresh+ drawer lets you switch between 4 modes to store different foods. In "Soft Freeze" mode it preserves the freshness of delicate foods, like meat and fish, for two times longer than normal cooling and retains its natural flavor. Available on certain models. Testing by Samsung Electronics. Data was provided to Intertek who assisted Samsung in interpreting the data in accordance with Samsung's project plan. Tested on RT47CB668422ST and based on analysis of the APC (aerobic plate count) of sample foods after storage in the test units. Applies when set to Soft Freeze(knob MAX & temp. display 1°C), compared to Fridge room(2°C) in the fridge compartment. Results may vary depending on freshness, usage conditions, and other factors before storage.
- **More space inside (SpaceMax™)** Store more food in a spacious interior with 20 liters more capacity. Unique SpaceMax™ technology uses special high urethane insulation that enables the walls to be much thinner without compromising energy efficiency. So it creates more space inside. Based on the RT47CG6644S9ST compared with the RT43K6230S8/ST models.
- **Always plenty of ice (Auto Ice Maker (Optional))** Make sure that you have plenty of ice for cold drinks whenever you want and create space in the fridge. The Auto Ice Maker automatically makes and stores ice cubes in the bin below, which you can take out to serve ice anywhere. And, being built into the freezer, it frees up room in the fridge. Available on certain models.
- **99.99% less bacteria on the air filter (Active Fresh Filter (Optional))** Keep the fridge clean and hygienic, reducing the risk of food being contaminated. An Active Fresh Filter eliminates 99.99% of bacteria on the filter's surface. Air passes through an activated carbon filter, so it is sterilized and deodorized, while an anti-bacterial mesh eliminates bacteria. Available on certain models. Tested by Intertek. 99.99% of Staphylococcus Aureus and Escherichia Coli.
- **Smart control (Wi-Fi Embedded)** Monitor and manage the refrigerator anytime, anywhere. Its embedded Wi-Fi lets you track and adjust its performance using the SmartThings App. You can easily control the Rapid Cooling mode, change the temperature and get alerts if the door is left open. It will also detect and diagnose issues. Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required.

- **Efficient energy use, Smart savings (SmartThings Energy)** Manage your energy usage to reduce your carbon footprint and save money. SmartThings Energy provides energy efficiency tips. It also monitors the energy consumption of appliances in real-time and compares it to the previous month. And it alerts you if your monthly targets might be exceeded. Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required. SmartThings Energy currently works with around 40 Samsung home appliances that are SmartThings enabled. These include refrigerators, washing machines, clothes dryers, dish washers, air conditioners, air purifiers, vacuum cleaners, ovens, hoods, cooktops, microwave ovens, TVs (from June 2022) and energy meters.
- **Smart maintenance, Easy upkeep (SmartThings Home Care)** Take care of your refrigerator more easily. SmartThings Home Care provides real-time monitoring and alerts. You can check on its status, including the condition of the water filter. It also automatically notifies you if parts need replacing or problems are detected, and suggests a solution. Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required.
- **Store small items (Multi Tray (Optional))** Make good use of your fridge space. A detachable Multi Tray fits underneath the shelves and lets you neatly store and organize various small items, like bottles and cans, as well as food and ingredients, such as pizzas and egg boxes. And it is easy to take out, so you can serve them anywhere. Available on certain models.
- **Efficient compressor (Digital Inverter Technology)** Enjoy great energy efficiency, little noise and a long-lasting performance. The Digital Inverter Compressor automatically adjusts its speed in response to cooling demand. So it's quiet, uses power efficiently and keeps working for a long time, backed-up by a 10 year warranty on the compressor. 10 year warranty is limited to the compressor only.
- **Sleek & modern look (Design)** Give your home an elegantly sleek and modern look. The clean and contemporary design features strikingly beautiful flat doors with a premium silver deco around the edge and recessed handles that don't protrude. So it will fit seamlessly with kitchen appliances and enhance the look of your home.
- **Fast cooling on demand of food & drinks (Power Cool)** Enjoy a rapid cooling performance to chill food and beverages fast. At the touch of a button, Power Cool blows intensely cold air into the fridge. You can quickly cool your weekly groceries to lock-in their freshness and flavor or rapidly chill your favorite drinks for a party or dinner.
- **Cools evenly from corner to corner (All-Around Cooling)** Take food storage to a new level of optimized cooling and preserve freshness effectively. Advanced All-Around Cooling continually checks the temperature and circulates cool air through strategically placed vents. So every item on every shelf and in every box is kept at the optimum temperature.

Specifications

Overview

- **Net Total Liter:** 348 l
- **Net Weight Kg:** 53.5 kg
- **Net Dimension Wxhxd Mm:** 600 _ 1715 _ 709 mm

Capacity

- **Net Total Liter:** 348 ℓ
- **Net For Freezer Liter:** 80 ℓ
- **Net For Fridge Liter:** 268 ℓ

Physical Specification

- **Net Dimension Wxhxd Mm:** 600 _ 1715 _ 709 mm
- **Packing Dimension Wxhxd Mm:** 638 _ 1810 _ 748 mm
- **Net Weight Kg:** 53.5 kg
- **Packing Weight Kg:** 59.5 kg
- **20 40 40H Container:** 24/54/72

Cooling Feature

- **No Frost:** Yes
- **Multi Flow:** Yes
- **Cooling Type:** Mono Cooling

Refrigerator Feature

- **Deodorizer:** Yes
- **Number Of Shelf Total:** 4 EA
- **Shelf Material:** Tempered Glass
- **Number Of Vegetable Fruit Drawer:** 1 EA
- **Number Of Door Pocket:** 4 EA
- **Egg Container Egg Tray:** Yes
- **Optimal Fresh Zone:** No
- **Interior Led Light:** Yes
- **Active Fresh Filter:** No

Freezer Feature

- **Ice Maker:** Tray
- **Material Of Shelf:** Plastic
- **Number Of Shelf Total:** 1 EA
- **Number Of Door Pocket:** 2 EA

General Feature

- **Refrigerant:** R-600a
- **Compressor:** Digital Inverter Compressor

Exterior Feature

- **Display Type:** Knob
- **Door Handle:** Recess
- **Color:** Snow White

Smart

- **Wifi Embedded:** No

App Connectivity

- **Smartthings App Support:** No

Reviews

1. The SpaceMax design is genuinely impressive. Upgrading to this 348L model gave us so much extra depth without taking up more floor space. The All-Around Cooling works perfectly—no more accidentally freezing the vegetables pushed to the back of the shelf. (5 stars, posted 3 weeks ago)
2. The Snow White finish looks incredibly clean and minimalist. The Digital Inverter compressor is practically silent, and the Power Cool button is an absolute lifesaver during the intense Lahore summers when we need to chill water and drinks fast. (5 stars, posted 2 months ago)
3. Great cooling performance and a very spacious interior for the price. However, buyers should check the specs carefully—while some of the general manual features mention SmartThings AI, this specific 348L variant doesn't actually have the Wi-Fi module built-in. Still, as a reliable, non-smart fridge, it does its job flawlessly. (4 stars, posted 4 months ago)
