

Top-Load Washer Ecobubble 10Kg

Price: Rs. 114,999.00 (Original Price: Rs. 139,999.00 - Save Rs. 25,000.00)

Features

- **Powerful Wash, More Savings (Ecobubble™)** Wash powerfully and efficiently. Ecobubble™ with DIT gets clothes clean using up to 60% less energy and up to 14% less water. BubbleStorm™ helps detergent penetrate fabric 2.5x faster and gives up to 20% better fabric care. Dual Storm™ creates a vortex of water current with more effective wash.

Based on internal testing of the WA4000B 7kg model with Ecobubble™ and Digital Inverter motor, using an IEC 2kg load (water level 4), compared to the WA4000HS 7kg model without Ecobubble™ and an AC motor (water level 2). Results may vary depending on the actual usage conditions.

- **Durable & efficient (Digital Inverter Technology)** Enjoy efficiency and long-lasting performance with Digital Inverter Technology. It utilizes strong magnets for a quiet and powerful performance with enhanced energy efficiency. It also provides exceptional durability, backed-up by the industry's longest warranty of 10 years on the motor.

As at April 2026. The 10 year parts warranty is only applicable to the inverter motor.

- **Wash in 29 minutes (Super Speed)** Cut your normal laundry time by up to 40% and get clothes thoroughly clean. Super Speed washes a load in just 29 minutes. It ensures powerful cleaning and reduces water usage by 22%. In addition, it shortens the rinsing time by shooting powerful jets of water and accelerates the spin speed.

A Normal wash can be completed in as little as 29 minutes using Super Speed at the default settings with a 2kg load, compared to 49 minutes in a Samsung washing machine without Super Speed. Water consumption is reduced from 79 liters to 62 liters.

- **Keeps the tub clean (Eco Tub Clean)** Keep your top load washer fresh and hygienically clean, while being eco-friendly and saving money. The Eco Tub Clean course removes dirt and up to 95% of bacteria that can build-up in the tub, without using harsh or costly detergent. And it notifies you automatically when it needs cleaning.

Eliminates 95% of *Pseudomonas aeruginosa* from the surface of a tub. Based on the results from the tests performed by Intertek engineers in accordance with the test protocols provided by Samsung: equip a tub polluted with bacteria into the machine, run the Eco Tub Clean cycle and then compare the number of viable bacteria before and after the cycle. The Eco Tub Clean function should be used with no laundry inside the tub. Individual results may vary depending on the actual usage conditions. Recommended for use every one or two months, when an alert icon turns on.

- **Even cleaner clothes (Magic Filter)** Keep unsightly speckles off your whites and darks, and protect the drainage from getting clogged up. A Magic Filter with a dual mesh, at the front and back, effectively gathers the lint, fluff and particles that come out of your laundry. And it is easy to empty out the filter, as it opens 180°.

- **Effective deep cleaning (Intensive Wash)** Get clothes spotlessly clean, even if they are really dirty. An Intensive Wash can be used in any course to remove stubborn stains, like blood, tea, wine, make-up or grass. It generates rich bubbles that quickly penetrate fabric and a powerful water flow, so dirt is removed more effectively.

Available in all courses, except for the Quick Cycle and Delicate Cycle. Compared to a conventional Samsung washing machine without Ecobubble™.

- **Easy closing door (Soft Closing Door)** Avoid being frightened by unexpected bangs! The Soft Closing Door shuts safely, gently and silently, as a damper automatically slows its movement. A tempered glass window also lets you view your washing without lifting the lid. And it is durable and strong, so it won't get scratched or damaged.
- **Rear Control** Use your washer easily and intuitively without worrying about splashing water on the digital panel. The slanted Rear Control is located at the back of the machine. It means the controls are really easy to see, even from a distance, and are protected from water splashes when getting clothes out.

Specifications

Overview

- **Washing Capacity Kg:** 10.0 kg
- **Pulsator:** PP Dual Storm
- **Drum Type:** 2nd Diamond
- **Net Dimension Wxhxd Mm:** 540 x 1008 x 577 mm
- **Net Weight Kg:** 30 kg

Washing Capacity

- **Washing Capacity Kg:** 10.0 kg

Design

- **Body Color:** Lavender gray
- **Door:** Black Caviar
- **Panel Display:** LED

Feature

- **Eco Bubble:** Yes
- **Bubble Storm:** Yes
