

Galaxy Buds Core

Price: Rs. 17,999.00 (Buy now and save up to 30% off on Buds Core)

Features

- **Go-to audio, ready for the day** Solid sound, enhanced by ANC. Image simulated. Available colors of Galaxy Buds Core may vary by country or carrier. Images simulated for illustrative purposes.
- **Comfy fit, effortless control** Images simulated for illustrative purposes.
- **Easy, reliable connectivity** Images simulated for illustrative purposes.
- **Comfy fit for sound that hits** Designed for all-day comfort, Galaxy Buds Core features silicone wingtips for a pressure-free fit. Whether you're relaxing at home or jogging around the park, Galaxy Buds Core stays in place while feeling light and comfortable. Images simulated for illustrative purposes.
- **Convenience at your fingertip** Controlling your playlist just got easier. Simply connect your earbuds, keep your smartphone in your pocket and pause your favorite song with a single tap. Then, play on by using the same gesture. Images simulated for illustrative purposes.
- **Bold bass, balanced sound** Enjoy carefully crafted sound with clear trebles and a deep, well-tuned bass that stays true to the beat. Images simulated for illustrative purposes.
- **Tune in to your world, tune out the rest** Kick back and let your music take center stage. Active Noise cancellation reduces unnecessary noise — creating a quiet space to listen to the latest hits or to your favorite podcasts. Images simulated for illustrative purposes. ANC (Active Noise Cancellation) is on by default, and the touch and hold gesture for ANC can be configured directly in the phone settings for devices running One UI 8.0 and later. For devices running on earlier versions of One UI, configurations can be found in the Galaxy Wearable app.
- **Communicate with clarity** Hear and be heard with crisp, clear calls wherever you go. The 3 microphones work in unison to capture your voice with precision, ensuring your words can be heard crystal clear. Images simulated for illustrative purposes.
- **Power through your playlist** With 35 hours of play time, your life soundtrack is ready to play whenever you are. With ANC off, earbuds and case provide up to 35 hours of play time on a full charge. With ANC on, they provide up to 20 hours of play time on a full charge. Based on internal testing. Play time is tested by pairing pre-produced Galaxy Buds Core to a recently released Samsung Galaxy smartphone with default settings. Actual battery life may vary and depend on usage conditions, settings, number of times charged, Bluetooth signal strength, and other factors. 'Play time' refers to when the Galaxy Buds Core are connected to the phone, streaming music. Play time may vary based on settings.
- **Real-time interpreter, right in your ears (Conversation Mode / Listening Mode)** Enhance your Galaxy AI experience with Galaxy Buds Core. Now, supporting Interpreter, hear translations on the spot — without needing to look at the screen of your smartphone. Keep your earbuds on and stay engaged in your conversation while Galaxy AI provides translations in real-time. To access conversation mode,

point the phone mic toward the speaker, then touch your Galaxy Buds Core to hear your conversation interpreted seamlessly. Galaxy Buds Core supports Galaxy AI features such as Interpreter and Live Translate when paired with compatible Samsung Galaxy devices. Availability of Galaxy AI features may vary by device model. See samsung.com for details. Interpreter requires Samsung Account login. Certain languages may require language pack download. Service availability may vary by language. Accuracy of results is not guaranteed. Availability and supported features may vary by country, region or carrier. Availability of supported languages may vary. Audio interpretation is only available when wearing Samsung Galaxy Buds and connected to a Samsung Galaxy smartphone. Interpreter feature is not directly provided by Samsung Galaxy Buds themselves. If Samsung Galaxy Buds are unavailable, the interpreted content is provided on the screen of your Samsung Galaxy smartphone.

- **one connection, seamlessly in sync** Connecting your Galaxy Buds Core to your devices is quick and easy. Simply turn on Bluetooth, open the charging case and your earbuds will automatically sync with your device. Images simulated for illustrative purposes. Devices sold separately. Connecting Samsung Galaxy Buds as Bluetooth Audio is available regardless of the OS. For devices running One UI 8.0 and later, settings can be configured directly in the phone settings. For devices running on earlier versions of One UI, configurations can be found in the Galaxy Wearable app. Additionally, to use the Galaxy Wearable app, Samsung Galaxy Buds must be paired with a smartphone running Android 11.0 or above with at least 1.5 GB of memory. Samsung account login is required to activate and change the Galaxy Buds Core settings on the Galaxy Wearable app.
- **from lost to found** Missing an earbud or two? Track them with ease using Samsung Find. Check the map for their last known location — if the case is open, your Galaxy Buds Core will start ringing, making them easier to find. Device and screen images simulated for illustrative purposes. Support services may vary by country/region/carrier. Samsung Find functionality, supported environments, and specifications may vary by product. The Samsung Find app is available for download from the Galaxy Store. The device must be turned on and logged in to your Samsung account. The offline finding feature for your Samsung Galaxy Buds can be enabled within the phone settings for devices running One UI 8.0 and later. For devices running on earlier versions of One UI, configurations can be found in the Galaxy Wearable app. The connected phone or tablet's offline finding settings will also be applied to your Samsung Galaxy Buds.
- **swap and stay in sync** Keep the beat going from one device to another. Auto Switch on Galaxy Buds Core automatically recognizes audio activity — and smoothly shifts the connection, maintaining your flow from your Samsung Galaxy smartphone to your Samsung Galaxy Tab. Images simulated for illustrative purposes. Devices sold separately. Auto Switch feature is only available on Samsung Galaxy smartphones and tablets with One UI 3.1 or later, and on Galaxy Watch4 or later. The devices must be logged in to Samsung Account to enable Auto Switch. Availability of certain features of Auto Switch may vary.
- **Classic colors, timeless tunes** From bold black to fresh white, choose a color that seamlessly complements your look with style and sound that suit the moment. Images simulated for illustrative purposes. Available colors may vary by country or carrier.

Reviews

1. I bought it one week ago, Over all good Pros. Noise cancelling, clarity, connectivity, battery, comfort
Cons. no dual device connection, build quality slightly low (4 stars, posted 3 months ago)

2. Excellent performance. Have galaxy buds fe also and I can confidently say this is the fe upgrade. Long battery life and ANC more superior (5 stars, posted 9 months ago)
3. The sound quality is good and very happy with the purchase.. (5 stars, posted 5 months ago)
4. I bought this yesterday and I am very happy with it, the noise cancelling is amazing and the sound quality is great aswell, But I specifically bought this for sports as it has a wingtip it stays in my ear comfortably as well. (5 stars, posted 7 months ago)
5. Not good for calls, mic is not performing well during the call, sometimes it is getting disconnected during the call. Otherwise all good!!! (3 stars, posted 8 months ago)
6. Great performance but the winged tip is very painful to the ears (3 stars, posted 3 months ago)
7. Excellent. If you need to listen real music by this. (5 stars, posted a month ago)
