

Top-Load Washer DIT 8Kg

Price: Rs. 80,999.00 (Original Price: Rs. 105,999.00 - Save Rs. 25,000.00)

Features

- **Durable & efficient (Digital Inverter Technology)** Enjoy efficiency and long-lasting performance with Digital Inverter Technology. It utilizes strong magnets for a quiet and powerful performance with enhanced energy efficiency. It also provides exceptional durability, backed-up by the industry's longest warranty of 10 years on the motor.

As at April 2026. The 10 year parts warranty is only applicable to the inverter motor.

- **Keeps the tub clean (Eco Tub Clean)** Keep your top load washer fresh and hygienically clean, while being eco-friendly and saving money. The Eco Tub Clean course removes dirt and up to 95% of bacteria that can build-up in the tub, without using harsh or costly detergent. And it notifies you automatically when it needs cleaning.

Eliminates 95% of *Pseudomonas aeruginosa* from the surface of a tub. Based on the results from the tests performed by Intertek engineers in accordance with the test protocols provided by Samsung: equip a tub polluted with bacteria into the machine, run the Eco Tub Clean cycle and then compare the number of viable bacteria before and after the cycle. The Eco Tub Clean function should be used with no laundry inside the tub. Individual results may vary depending on the actual usage conditions. Recommended for use every one or two months, when an alert icon turns on.

- **Even cleaner clothes (Magic Filter)** Keep unsightly speckles off your whites and darks, and protect the drainage from getting clogged up. A Magic Filter with a dual mesh, at the front and back, effectively gathers the lint, fluff and particles that come out of your laundry. And it is easy to empty out the filter, as it opens 180°.
- **Effective deep cleaning (Intensive Wash)** Get clothes spotlessly clean, even if they are really dirty. An Intensive Wash can be used in any course to remove stubborn stains, like blood, tea, wine, make-up or grass. It generates rich bubbles that quickly penetrate fabric and a powerful water flow, so dirt is removed more effectively.

Available in all courses, except for the Quick Cycle and Delicate Cycle. Compared to a conventional Samsung washing machine without Ecobubble™.

- **Soft Closing Door** Avoid being frightened by unexpected bangs! The Soft Closing Door shuts safely, gently and silently, as a damper automatically slows its movement. A tempered glass window also lets you view your washing without lifting the lid. And it is durable and strong, so it won't get scratched or damaged.
- **Rear Control** Use your washer easily and intuitively without worrying about splashing water on the digital panel. The slanted Rear Control is located at the back of the machine. It means the controls are really easy to see, even from a distance, and are protected from water splashes when getting clothes out.

Specifications

Overview

- **Washing Capacity Kg:** 8.0 kg
- **Pulsator:** PP Dual Storm
- **Drum Type:** 2nd Diamond
- **Net Dimension Wxhxd Mm:** 540 x 857 x 568 mm
- **Net Weight Kg:** 27 kg

- **Net Weight Kg:** 27 kg
- **Gross Dimension Wxhxd Mm:** 580 x 890 x 600 mm
- **Gross Weight Kg:** 31 kg

Reviews

1. The machine we recently bought consumes alot of water and timing to even wash on quick wash option. 2ndly while washing and spinning it create more sound and move too much. I didnt like it.
