

Freestanding Dishwasher WaterJet Clean™

Price: Rs. 199,999.00 (Original Price: Rs. 229,999.00 - Save Rs. 30,000.00)

Features

- **Energy efficient (Energy Efficiency)** Save energy but clean and dry dishes effectively. Under the European energy labelling system, it has a high energy efficiency rating with A energy label. Using an innovative All-in-one Sump, it consumes less power and only 9.4 liters of water without impacting on its washing performance.

A energy label: DW60DG790. Based on internal testing, compared to the conventional Samsung DW60A6090BB model, which has an E energy label.

- **Effective Washing & Drying (Energy Efficiency Class B & C)** Clean dirty dishes powerfully and effectively. Under the European energy labelling system, it holds a B or C class energy efficiency rating depending on the model. Using an innovative All-in-one Sump, it consumes less power and only 9.2 to 9.4 liters of water without impacting on its washing performance.

B energy label: DW60DG770, DW60DG760. C energy label Model code: DW60DG750. Based on internal testing, compared to the conventional Samsung DW60A6090BB model, which has an E energy label.

- **Cleans effectively (WaterJet Clean™)** Get outstanding washing results using the new WaterJet Clean™. With rotating dual wash arms it delivers intensive cleaning from every angle. Its two spray arms have separate water jets and rotate in opposite directions. So it cleans heavily soiled pots, pans and dishes rapidly and thoroughly.
- **Connect your life with SmartThings (Wi-Fi Embedded)** Optimize how you use the dishwasher to suit your lifestyle. The SmartThings App lets you remotely monitor and control it on a smartphone. It also suggests the most effective courses based on how you cook, while helping you reduce energy use, manage consumables and diagnose and resolve errors.
- **Reduce energy costs (Optimal Scheduling)** Wash economically and reduce your home's carbon footprint – automatically. When Optimal Scheduling is activated in the SmartThings App, you can start your washing during off-peak times when the cost of electricity is low. You can also choose to start it in periods of low carbon intensity.
- **Energy monitoring (SmartThings AI Energy mode)** Monitor your dishwasher's energy use. Using artificial intelligence, AI Energy mode monitors its power consumption and predicts its ongoing usage. If the monthly electricity bill might exceed your target, you can turn on the energy saving mode, so the dishwasher uses up to 23% less energy.
- **Personalized cleaning (Download Program)** Customize your cleaning experience whenever you want. A Download Program option lets you choose from 4 additional specialist programs and instantly download the one you want using the SmartThings App on a smartphone. Just select the Pots and Pans, Plastic, Baby Care or Drinkware cycle.

- **Enjoy a quiet home (Extra Quiet)** Reduce noise in your home. The dishwasher works smoothly and quietly as it has an Inverter motor that reduces friction. It also has an Extra Silence program that washes a little bit slower, but creates 2dB less noise than the ECO program. The amount of noise it makes is quieter than a library.

Based on testing conducted in an internal laboratory. The noise level of the DW60DG790 / DW60DG770 models: Extra Silence program = 41dB, ECO program = 43dB. The noise level of the DW60DG760 models: Extra Silence program = 42dB, ECO program = 44dB.

- **Sparkling dry dishes (Auto Open Door)** Enjoy sparkling clean dishes every time with the Auto Open Door feature. When the rinse and dry process is complete, the door automatically opens 10cm to allow steam to escape. It gives you effective drying results compared to conventional methods, especially for small items.

Based on internal testing of DW60DG790FSLU1 model, the difference of drying performance is around 50% when comparing with auto open door and without auto open door.

- **Holds large dishes (Flex Load)** Fit in various sized dishes, glasses and cups. The middle rack's tines can be adjusted across 3 settings using a lever and it has a glass holder. A high lower rack with foldable tines at the front helps load dishes and bowls stably, while tines at the back fold down fully to load large items.
- **See if it is running (Floor Info Light)** Check if your dishwasher is working with one quick glance! The Floor Info Light projects a blue beam onto the floor when a wash cycle is in progress. It is easy to see, even from a distance. And as soon as your dishes are clean and ready to be unloaded the light turns off. So no more guessing!
- **Lessens water damage (Aqua Stop)** Stay safe from unexpected water damage with the Aqua Stop safety function. It shuts off the water supply and the electrical connection to stop the operation of the dishwasher if it detects small traces of water. So it lessens you from electrical shocks and potentially expensive water damage.

Leakage sensor blocks the water supply when it detects around 60ml of water.

- **Sanitize the inside (Machine Care)** Keep the inside of the dishwasher hygienic, while being eco-friendly. Using Machine Care you can clean the cavity with one touch of a button. It removes dirt and odor-causing bacteria using only water, so you don't need harsh detergent. And it automatically notifies you when it needs cleaning.
- **Fits in seamlessly (Kitchen Fit™ Sliding Door)** Make sure that your dishwasher fits seamlessly into your kitchen furniture. The Kitchen Fit™ Sliding Door features a sliding hinge that allows the door cover to slide upwards when the door is opened. So, unlike a fixed hinge, the door can be opened fully without having to cut the plinth below.

Custom panel weight range: 4.5-12kg (Self adjusting). Kitchen Fit Sliding Model: DW60DG7I00.

Specifications

Overview

- **Color Material:** Silver

- **Install Type:** Freestanding
- **Size:** 24"
- **Washing Type:** WaterJet Clean™
- **Number Of Option:** 5
- **Capacity Place Setting:** 14 P/S
- **Energy Star:** 5
- **Noise Level DbA:** 43 dBA
- **Water Consumption Per Year:** 2632 ℓ

Design

- **Install Type:** Freestanding
- **Size:** 24"
- **Control Type:** Hidden touch

Power Ratings

- **Electrical Volts Hertz Amps:** 220-240V/ 50Hz
- **Heater Watts:** 2100W
- **Circulation Motor:** 53W
- **Drain Pump:** 35 W
- **Levelling Screws:** 0-45 mm

Smart

- **Wifi Embedded:** Yes
- **App Connectivity:** SmartThings App Support

Basic Information

- **Product Origin:** Thailand

Reviews

1. The WaterJet Clean feature is no joke. It gets rid of tough, baked-on stains on my pots and pans without any pre-rinsing. I also really love the Auto Open Door at the end of the cycle; it actually helps the plastic containers dry completely! (5 stars, posted 3 months ago)
2. Incredibly quiet. I sometimes have to look for the blue Floor Info Light just to make sure it's actually running! The SmartThings app integration is also very handy for tracking energy usage and scheduling washes for late at night. (5 stars, posted a month ago)
3. Very spacious with the 14 place settings, and the adjustable middle rack makes it super easy to fit my oversized dinner plates. My only minor issue was getting used to the hidden touch controls, but it gives the silver finish a very sleek, clean look in the kitchen. (4 stars, posted 4 months ago)
