

75" Neo QLED QN900F 8K Samsung Vision AI Smart TV (2025)

Price: Rs. 1,774,000.00 (Original Price: Rs. 1,809,999.00 - Save Rs. 35,999.00)

Features

- **A smarter voice assistant (Bixby)** With updated intelligence, Bixby in your Samsung AI TV is the perfect center of your AI home. It can process multiple commands at once, and it's better at grasping the wider context. Enjoy smoother conversations, easier searches, more intuitive reactions and seamless device control.

Voice commands and multi turn is supported for 10 languages (US/UK/IN(en)/DE/FR/IT/ES/BR/MX/KR). Not all accents, dialects and expressions recognized. Q8F and above support far-field mics.

- **Settings that intelligently optimize picture and sound (AI Mode)** AI Mode offers a quick-access menu to adjust adaptive picture and sound settings, intelligently optimizing your TV experience to your surroundings and the content you're watching.
- **Sound optimized and remastered to your content and space (Adaptive Sound Pro)** Listen to sound just as the creators intended, with clear voices and vivid, balanced tones. Your TV's AI processor recognizes different sounds — like dialogue and background music — and optimizes them for their type and your room's acoustics, before ultimately refining them with audio remastering technology.

Experience may vary depending on the content and environment.

- **Make your own mood-matching wallpapers with AI (Generative Wallpaper)** Choose keywords for the ambiance you want, and let AI work its magic. Your TV will generate beautiful, one-of-a-kind images that can change the atmosphere of your home.

The number of generation attempts allowed per day may be limited.

- **Stay connected to your pets while you're away (Pet Care)** Use your TV as a pet-sitting assistant when you're outside. Your TV can detect noises like barking through its microphone, and then automatically turn on your pet's favorite content to calm them down.

Real-time streaming on mobile devices is supported on Android OS 11.0 and higher versions or iOS 16.0 and higher versions, and is available on 2025 Samsung TVs and later models. It only works when the TV is turned off. TV must be connected to a power source to use this feature. TV and mobile device must be connected to SmartThings to send and receive notifications.

- **AI-powered 8K experience for your content (NQ8 AI Gen2 Processor)** Powered by 256 AI neural networks, this AI processor enhances your picture and sound to brilliant heights. Enjoy the optimal 8K TV experience, whether you're streaming OTT services, playing your favorite video games or watching live sports.

Samsung NQ8 AI Gen2 Processor has up to 12 times greater AI neural networks, up to 1.6 times faster GPU and up to 17% faster CPU than the 2025 Neo QLED 4K (NQ4 AI Gen2). Viewing experience may vary according

to types of content and format. Upscaling may not apply to PC connection and Game Mode.

- **Boost shows and movies into an 8K experience (8K AI Upscaling)** Watch your favorite content in stunningly realistic detail. Our AI processor takes content and enhances it up to 8K resolution with 256 AI neural networks — enabling sharp, smooth picture quality that makes the details come alive.

Viewing experience may vary according to types of content and format. Upscaling may not apply to PC connection and Game Mode.

- **Our most advanced Mini LED technology (Quantum Mini LED Pro)** Experience our most advanced Quantum Mini LED Pro, precisely controlled by Quantum Matrix Technology Pro. Quantum Mini LED Pro in Neo QLED 8K TVs are just 1/50 the size of conventional LEDs. This allows for unimaginable details expressed in both dark blacks and pure whites, with up to 1.5 more lighting zones than Quantum Matrix Technology Plus.

Conventional LEDs refer to those used in Samsung's Q8F model. Measurement is based on same-inch TV with Quantum Matrix Technology Plus.

- **Uninterrupted immersion, free from light disturbance (Glare Free)** See brilliant color, perfected by Glare Free. Glare Free is our most advanced anti-glare technology designed to reduce reflections and screen glare. It delivers a clearer, more comfortable and more focused viewing experience, whether in daylight or indoor lighting.

Verified 'Glare Free' performance by UL Solutions, based on Unified Glare Rating (UGR) assessments.

Verification issued when: Reflection Glare $UGR \leq 10$, Discomfort Glare $UGR \leq 22$, and Disability Glare $UGR \leq 34$. Results based on test conducted under indoor lighting conditions.

- **Intelligently enhanced color expression (Color Booster Pro)** AI recognizes each scene and enhances color expression accordingly, so your viewing experience becomes more vivid and dynamic.
- **Get 4 times higher resolution than 4K (Real 8K Resolution)** Feel the full power of every frame with 8K resolution. With 33 million pixels on screen, it provides four times higher resolution than 4K for greater clarity and depth.

Real 8K Resolution is defined as having 7,680 x 4,320 pixels. Native 8K content is based on current 8K streaming, connectivity and decoding standards. Certain third-party and future standards are not guaranteed or may require additional device/adaptor purchase.

- **Read text clearly with less blur (AI Motion Enhancer)** Our AI processor sharpens and smooths out moving text. That way, you can easily read subtitles as they scroll across the screen.

Viewing experience may vary according to types of content and format.

- **Lifelike colors and contrast for an 8K screen (Neo Quantum HDR 8K Pro)** Experience the ultimate picture quality in 8K. Samsung's technology works to accurately produce both brights and darks on screen, resulting in rich contrast and a full range of lifelike colors. HDR 10+ now streaming on OTT services.

HDR10+ availability may differ by content. Available OTT services may differ by country. Separate subscriptions required for certain streaming services. Terms apply. The range of Quantum HDR luminance is based on internal testing standards and is subject to change according to viewing conditions or specifications.

- **Ultra-realistic depth that brings images to life (Real Depth Enhancer Pro)** Watch the figures on screen pop out with astonishing realism. Real Depth Enhancer Pro locates where your eyes would typically focus — then increases foreground contrast in those areas to imitate real-life depth. With precise control over mini-LEDs, it can recreate 3D-like images that come alive.
- **Real Colors, Real QLED. You deserve nothing less.** Vibrant and accurate colors amplified by Samsung's Quantum Dot sheet without cadmium that delivers 100% color volume.

TÜVRheinland Certified Real Quantum Dot Display and SGS Performance Tested No Cadmium.

- **Get ultra-smooth motion for games up to 165Hz (Motion Xcelerator 165Hz)** Enjoy consistently crisp visuals at blazing-fast speeds. Samsung's unique dynamic refresh technology provides exceptionally smooth motion performance for VRR games up to 4K 165Hz.

4K 165Hz is only available with PC connected games that support such specifications (PC graphic card required). Its performance may vary.

- **Seamless AI-driven game optimization (AI Auto Game Mode)** Let your TV detect the type of game you're playing and optimize the settings. You can free yourself from the usual setup hassle and just play.

AI Auto Game Mode is available for certain console and PC games.

- **Fine-tune your game settings as you play (Game Bar)** Optimize your gameplay even more with Game Bar. Samsung TVs give you a handy in-game menu for settings like FPS, input lag, minimap zoom and more. It also lets you apply ultra-wide aspect ratios of 21:9 and 32:9 to expand your view on bigger screens.

Super Ultrawide GameView (21:9, 32:9) is available for certain PC and console games supporting ultrawide screens. Some game titles may not support this feature. Game Bar's Zoom-in mode is not supported for certain refresh rates. Game Bar UI is subject to change without prior notice.

- **Immersive surround sound with top channel speakers (Dolby Atmos®)** Feel the pulse-pounding action in every scene. Samsung's top channel speakers work with Dolby Atmos technology to create a multi-dimensional dome of sound, enveloping you in a truly intense audio experience.
- **TV and soundbar play together in smooth harmony (Q-Symphony)** Surround yourself with beautifully orchestrated sound. Samsung technology syncs the TV and soundbar audio to play simultaneously — without muting the speakers of either device.

Check for Q-Symphony compatibility on soundbar product specifications. Soundbar sold separately. The location and number of speakers may vary depending on the model.

- **Dynamic realistic sound that follows the action (Object Tracking Sound+)** Put yourself in the middle of the action. With 4.2.2.ch speakers, this TV plays powerful audio across its screen. AI-powered tracking enables the audio to move along with the objects on screen — enhancing your surround sound with realistic effect.
- **Catch every word without distractions (Active Voice Amplifier Pro)** Enjoy clear dialogue, no matter what's going on. Our AI technology enhances voice clarity by analyzing ambient noise and background sounds from your content.

- **Personalize your screen experience (One UI Tizen)** One UI Tizen provides a personalized screen experience. With Samsung Tizen OS, it delivers all the latest innovative Samsung features. Your experience is also secured by Samsung Knox across SmartThings devices. Plus, One UI Tizen will support Tizen OS upgrades for the next 7 years.

Content and services may vary by region and are subject to change without notice. Agreement to Smart Hub Terms and Conditions and Privacy Policy is required before use. Some content and services require registration and subscription. Requires Samsung account. Tizen OS upgrades will be supported for up to 7 years starting from 2025, for products released in the year 2025. Please note that the upgrade does not cover hardware-related performance, features or durability.

- **Find world-famous galleries in your TV (Art Store)** Find your ideal artwork from the world's leading museums and artists. Discover new art pieces with relevant and timely selections that complement each season, holiday and mood.

Subscription is required to enjoy all the art from the Art Store.

- **Your privacy. Secured. (Samsung Knox Security)** Your privacy is secure on Samsung TVs. Sensitive data like passwords are protected, connected IoT devices are monitored and malicious apps and sites are automatically blocked. Plus, Samsung's security team helps keep your TV safe with constant updates.

Samsung Knox Security applies to Samsung TVs powered by Tizen, launched since 2015. Latest software update is required.

- **Elevate your day with curated lifestyle experiences (Samsung Daily+)** Find apps and services for health, work and lifestyle on Samsung Daily+. You can access SmartThings, Workout Tracker, karaoke and more, all in one place.

Samsung is not responsible for any third-party services, and is not liable for any damages or losses caused by any third-party services.

- **Access useful info even when your TV is off (Daily Board)** Have useful widgets appear on your TV throughout the day. Even when your screen is off, your TV can detect when users come nearby and activate to display Daily Board. You can customize it with widgets like Weather, Memo, Music and more. Daily Board can also be activated hands-free by voice command.

Supported widgets vary by region and are subject to change without notice.

- **Connect and manage your smart home devices, all from your TV (SmartThings)** With a built-in smart hub, your TV can connect and control smart devices — even those requiring Matter and HCA compatibility. You can also get notifications about your devices straight from the screen, including a 3D Map View that shows your entire smart home system at a glance.

Available technology, functions and features may vary by country, service provider, network environment or product, and are subject to change without notice. Requires a Wi-Fi, Bluetooth or other wireless network connection and login to Samsung account. Connected devices are sold separately. Use of calm technology requires agreement to privacy notices from both SmartThings and the auto-registered device. TV and mobile device must be connected to SmartThings to use 3D Map View function. UI is subject to change without prior notice.

- **Gestures to control with your watch (Universal Gestures)** Easily control your TV with your smartwatch. Just wear your Galaxy Watch and use hand gestures, like pinching to select an option, or moving your wrist back and forth for pause and play.

Available apps and services may vary and are subject to change without notice. Only supported on Galaxy Watch4 and later models, and Wear OS 5 and higher versions.

- **Save energy with intelligent analysis (AI Energy Mode)** Energy saving made easy with SmartThings. By turning on AI Energy Mode, it auto detects surrounding light levels and analyzes usage behaviors to adjust the brightness. Also, it analyzes the content scene-by-scene to subtly adjust brightness where possible, to manage energy consumption.

Energy saving rate may vary by region, model, size, viewing conditions and type of content. Products shipped in Eco Mode have some AI Energy Mode functions enabled by default, so energy saving levels when AI Energy Mode is turned on may appear lower compared to Standard Mode. AI Energy Mode does not work with Game Mode. Energy savings are based on internal test results and may vary depending on the content being displayed and surrounding brightness levels.

- **Control your TV from your phone (Quick Remote)** Through your mobile device, you can access key Samsung Tizen TV features such as media, features, ambient mode and menu. Quick Remote can also act as your TV remote, allowing you to change channels, adjust the volume and more right from your phone.

Push notifications for mobile remotes for TVs are available on Android OS 10.0 and higher versions with 2020 Samsung TVs and later models, and operates when the mobile device is near the TV. Samsung Smart TV feature access is available on 2024 Samsung TVs and later models with Android OS 10.0 and higher versions or iOS 15.0 and higher versions.

- **Spatial 3D sound with Galaxy Buds (360 Audio Mode)** Immerse yourself in the scene with fluid sound from all around. Samsung TVs pair seamlessly with Galaxy Buds to deliver multi-directional 3D audio. With enhanced head tracking, it even syncs the direction of sound with your head movements.

Galaxy Buds 360 Audio Mode is available with Galaxy Buds2 Pro, Galaxy Buds2, Galaxy Buds Pro and Galaxy Live.

- **Transform your TV into a karaoke stage (Karaoke)** Have fun with friends and family with the karaoke feature in Samsung Daily+. You can even connect your phone to use as a mic. No need for any separate equipment — your singing setup is already here.

Requires SmartThings app to be installed on the mobile device and connected via the same Wi-Fi network as the TV set. Mobile mic is optimized only for Galaxy S23 or later models and iPhone 15 & above. You must download the Karaoke app from Tizen to use the Karaoke function. An additional paid subscription is required for this service after 6 months of free use. (Users can access 5 songs per day for free without a subscription.)

- **Blends seamlessly into your home (Metal Frame Design)** Transform your TV into a showcase for pictures and artwork. The metal bezel forms a sturdy yet minimalist frame, making for a classy artistic addition to your space.
- **Charge it with light (SolarCell Remote)** With a solar panel on its back, our SolarCell Remote is charged by light — no need for disposable batteries. And with smart features like a built-in microphone

and voice assistant, this remote is innovative in more ways than one.

To charge the remote with solar energy, set the TV remote down with the solar panel facing up. Place it in your living room while your lights are turned on, or you can place it near a window where it will soak in natural sunlight. In case the remote's battery is depleted, you can charge it using a USB-C cable. To check the remaining battery level of the remote control, refer to the TV Menu. The design and button layout of the SolarCell remote may vary depending on the region. SolarCell Remote in 2024 TV models contains a minimum of 24% recycled plastic.

Specifications

Product Type

- **Type:** NeoQLED

Display

- **Screen Size:** 75"
- **Refresh Rate:** 100Hz(Up to 4K 165Hz)
- **Resolution:** 8K (7,680 x 4,320)
- **Anti Reflection:** Glare Free

Video

- **Picture Engine:** NQ8 AI Gen2 Processor
- **Adaptive Picture:** AI Optimized/AI Customization
- **Hdr High Dynamic Range:** Neo Quantum HDR 8K Pro
- **Hdr 10 Plus:** Yes (ADAPTIVE/ GAMING)
- **Ai Upscale:** 8K AI Upscaling
- **Contrast:** Quantum Mini LED Pro
- **Viewing Angle:** Ultra Viewing Angle
- **Micro Dimming:** Ultimate 8K Dimming Pro
- **Contrast Enhancer:** Real Depth Enhancer Pro
- **Motion Technology:** Motion Xcelerator 165Hz
- **Smart Calibration:** Basic/Professional
- **Filmmaker Mode Fmm:** Yes
- **Ai Motion Enhancer:** AI Motion Enhancer
- **Hdr Brightness Optimizer:** Yes
- **Color Booster:** Color Booster Pro
- **Ai Hdr Remastering:** Auto HDR Remastering
- **Eyecomfort Mode:** Yes

Audio

- **Dolby Atmos:** Yes
- **Object Tracking Sound:** OTS+
- **Q Symphony:** Yes
- **Sound Output Rms:** 70W
- **Speaker Type:** 4.2.2CH
- **Active Voice Amplifier:** Yes (Active Voice Amplifier Pro)

- **Adaptive Sound:** Yes (Adaptive Sound Pro)
- **360 Audio:** Yes

Smart Service

- **Operating System:** Tizen™ Smart TV
- **Bixby:** Yes
- **Far Field Voice Interaction:** Yes
- **Samsung Tv Plus:** No (SA,AE,EG only)
- **Web Browser:** Yes
- **Smartthings Hub Matter Hub Iot Sensor Functionality Quick Remote:** Yes

Smart Feature

- **Multi Device Experience:** TV to Mobile, Mobile to TV, TV initiate mirroring, Sound Mirroring, Wireless TV On, Tap View
- **Multi View:** upto 4 videos
- **Apple Airplay:** Yes (w/o Syrian Arab Republic, Yemen)
- **Daily Plus:** Yes
- **Storage Share:** Yes
- **Generative Wallpaper:** Yes
- **Karaoke Mic:** Yes

Game Feature

- **Auto Game Mode Allm:** Yes
- **Game Motion Plus:** Yes
- **Dynamic Black Eq:** Yes
- **Vrr:** Yes
- **Surround Sound:** Yes
- **Super Ultra Wide Game View:** Yes
- **Game Bar:** Yes
- **Mini Map Zoom:** Yes
- **Freesync:** FreeSync Premium Pro
- **Light Sync:** Yes (AE only)
- **Ai Auto Game Mode:** Yes

Tuner Broadcasting

- **Digital Broadcasting:** DVB-T2CS2
- **Analog Tuner:** Yes
- **Tv Key Support:** Yes

Connectivity

- **Hdmi:** 4
- **Usb:** 2 x USB-A
- **Hdmi High Frame Rate:** 8K 60Hz, 4K 165Hz (for HDMI 1/2/3/4)
- **Ethernet Lan:** 1
- **Digital Audio Out Optical:** 1

- **Rf In Terrestrial Cable Input:** 1/1(Common Use for Terrestrial)/1
- **Wi Fi:** Yes (Wi-Fi 6)
- **Bluetooth:** Yes(5.3)
- **Anynet Plus Hdmi Cec:** Yes
- **Hdmi Audio Return Channel:** eARC

Design

- **Design:** Metal Frame
- **Bezel Type:** Chamfered Bezel
- **Front Color:** TITAN BLACK
- **Stand Type:** ROUND FEET
- **Stand Color:** BLACK

Additional Feature

- **Art Store:** Yes
- **Knox Vault:** Yes
- **Embebed Pop:** Yes
- **Epg:** Yes
- **Extended Pvr:** Yes
- **Ip Control:** Yes
- **Osd Language:** Local Languages

Accessibility

- **Voice Guide:** English (UK),French (France),Hindi (India),Korean (Korea),Russian (Russia)
- **Low Vision Support:** Relumino, Magnification, Audio Description, Zoom Menu and Text, High Contrast, SeeColors, Color Inversion, Grayscale, Auto Picture Off
- **Hearing Impaired Support:** Closed Caption (Subtitle), Multi-output Audio, Sign Language Zoom
- **Motor Impaired Support:** Slow Button Repeat, Remote Control App. for All

Power Eco Solution

- **Eco Sensor:** Yes
- **Power Supply:** AC100-240V~ 50/60Hz
- **Power Consumption Max:** 490 W
- **Auto Power Off:** Yes
- **Auto Power Saving:** Yes

Dimension

- **Package Size Wxhxd Mm:** 1831.0 x 1080.0 x 170.0 mm
- **Set Size With Stand Wxhxd Mm:** 1680.0 x 992.7 x 319.8 mm
- **Set Size Without Stand Wxhxd Mm:** 1680.0 x 958.1 x 38.5 mm
- **Stand Basic Wxd Mm:** 1404.7 x 319.8 mm
- **Stand Minimum Wxd Mm:** 340.7 x 319.8 mm
- **Vesa Spec Mm:** 400 x 400 mm

Weight

- **Package Weight Kg:** 44 kg
- **Set Weight With Stand Kg:** 35.80 kg
- **Set Weight Without Stand Kg:** 35.8 kg

Accessory

- **Remote Controller Model:** TM2360E
- **Slim Fit Wall Mount Support:** Yes
- **User Manual:** Yes
- **Full Motion Slim Wall Mount Y22:** Yes
- **Webcam Support:** Yes
- **Zigbee Thread Module:** Built-In
- **Power Cable:** Yes

Reviews

1. The 8K resolution on this 75-inch beast is unbelievable. Even when watching older 4K or 1080p movies, the NQ8 AI Gen2 Processor upscales everything flawlessly so it looks incredibly sharp. The Glare-Free screen is also a massive upgrade; my living room has huge windows, and I barely see any reflections now during the day. (5 stars, posted 3 weeks ago)
2. If you are a hardcore gamer with a high-end PC, this is the ultimate display. Hitting 4K at 165Hz on a screen this large is mind-blowing. The AI Auto Game Mode tweaks everything perfectly without me having to mess with settings, and there is zero screen tearing thanks to the FreeSync Premium Pro. (5 stars, posted 1 month ago)
3. The picture is obviously fantastic with those deep blacks from the Mini LEDs, but the sound really surprised me. The Object Tracking Sound+ combined with Dolby Atmos makes it feel like the audio is actually moving across the screen. I also love using the Pet Care feature to automatically play calming videos for my dog when it detects barking while I'm at work! (4 stars, posted 2 months ago)
