

85" Crystal UHD U8000F 4K Smart TV (2025)

Price: Rs. 670,000.00 (Original Price: Rs. 683,999.00 - Save Rs. 13,999.00)

Features

- **Feel every shade of color as intended in powerful 4K (Crystal Processor 4K)** See every shade of color in all its original glory with our advanced processor. Plus, powerful 4K upscaling ensures you get up to a 4K resolution for the content you love.

Viewing experience may vary according to type of content and format. Upscaling may not apply to PC connection and Game Mode.

- **Feel the reality of the world on screen (4K Resolution)** Make out the small details in every scene. 4K UHD resolution has 4x more pixels than regular FHD resolution — creating sharp, ultra-realistic images.
- **Enjoy better contrast with rich darks and bright whites (HDR)** High Dynamic Range increases the ratio between the lightest and the darkest regions in a scene, so you can enjoy an enormous spectrum of colors and all the visual details in both bright and dark scenes.
- **Watch your favorite content in 4K (4K Upscaling)** Our powerful 4K upscaling technology ensures you get up to 4K resolution for the content you love.

Viewing experience may vary according to types of content and format. Upscaling may not apply to PC connection and Game Mode.

- **Fine-tuned colors for a vibrant, lifelike picture (PurColor)** Watch films so vivid that it feels like you're there. PurColor produces a wide range of colors with optimal quality for an immersive, true-to-life experience.
- **See images come to life with greater depth (Contrast Enhancer)** Contrast Enhancer brings flat images to life by adjusting contrast, resulting in deeper depth for outstanding picture quality.
- **An elegant metal design that upgrades your space (MetalStream Design)** Inspired by aircraft design, this TV features a luxurious metal body. A single sheet of metal is used to create the slim bezel, enabling a truly immersive experience.
- **Personalize your screen experience (One UI Tizen)** One UI Tizen delivers a seamless and consistent Samsung device experience. Our operating system, Samsung Tizen OS, lets you take advantage of the latest innovative Samsung features — including quick access to the content you love, convenient AI management and powerful protection with Samsung Knox Security. Plus, One UI Tizen will support Tizen OS upgrades for next seven years, bringing you the latest apps & services.

Content and services may vary by region and are subject to change without notice. Agreement to Smart Hub Terms and Conditions and Privacy Policy is required before use. Some content and services require registration and subscription. Requires Samsung account. Tizen OS upgrades will be supported for up to 7 years starting from 2025, for products released in the year 2025. Please note that the upgrade does not cover hardware-related performance, features or durability.

- **Your privacy. Secured. (Samsung Knox Security)** Your privacy is secure on Samsung TVs. Sensitive data like passwords are protected, connected IoT devices are monitored and malicious apps and sites are automatically blocked. Plus, Samsung's security team helps keep your TV safe with constant updates.

Samsung Knox Security applies to Samsung TVs powered by Tizen, launched since 2015. Latest software update is required.

- **Improved picture clarity with smooth motion (Motion Xcelerator)** Experience a clear picture as your TV estimates the movement between frames, then uses that information to improve motion smoothness for subsequent frames.
- **Connect and manage your smart home devices, from your TV (SmartThings)** With a built-in smart hub, your TV can connect and control smart devices — even those requiring Matter and HCA compatibility. You can also get information about your smart home straight from the screen, including real-time summaries and suggestions for optimization.

Available technology, functions and features may vary by country, service provider, network environment or product, and are subject to change without notice. Requires a Wi-Fi, Bluetooth or other wireless network connection and login to Samsung account. Connected devices are sold separately. Use of calm technology requires agreement to privacy notices from both SmartThings and the auto-registered device. TV and mobile device must be connected to SmartThings to use 3D Map View function. UI is subject to change without prior notice.

- **Elevate your day with curated lifestyle experiences (Samsung Daily+)** Find apps and services for health, work and lifestyle on Samsung Daily+. You can access SmartThings, Workout Tracker, karaoke and more, all in one place.

Samsung is not responsible for any third-party services, and is not liable for any damages or losses caused by any third-party services.

- **Control your TV from your phone (Quick Remote)** Through your mobile device, you can access key Samsung Tizen TV features such as media, features, ambient mode and menu. Quick Remote can also act as your TV remote, allowing you to change channels, adjust the volume and more right from your phone.

Push notifications for mobile remotes for TVs are available on Android OS 10.0 and higher versions with 2020 Samsung TVs and later models, and operates when the mobile device is near the TV. Samsung Smart TV feature access is available on 2024 Samsung TVs and later models with Android OS 10.0 and higher versions or iOS 15.0 and higher versions.

- **Easily multitask across screens (Multi Control)** Use your mouse to move content across screens, or a single keyboard to type on multiple devices. Your TV can connect with smart monitors and Galaxy devices into a unified experience — controlled by the same mouse, touchpad or keyboard. Thanks to Samsung's seamless ecosystem, you can easily stay connected and redefine your everyday life.

Each device must be registered with a single Samsung account and be connected to the same Wi-Fi network. Multi Control requires updated Galaxy phones and tablets with One UI 5.1.1 or above, and Galaxy Book series devices released in 2021 or later with Samsung Settings v1.5 (Intel) or Samsung Settings v3.3 (ARM), and TVs

and smart monitors from 2024 or later. Some functions (such as Copy & Paste or Drag & Drop) may not be available when using certain device models and apps. Feature availability may vary by region.

- **Gesture to control with your watch (Universal Gestures)** Easily control your TV with your smartwatch. Just wear your Galaxy Watch and use hand gestures, like pinching to select an option, or moving your wrist back and forth for pause and play.

Available apps and services may vary and are subject to change without notice. Only supported on Samsung Galaxy Watch 4 and later models, with Wear OS 5 and higher versions.

- **Take your home workout sessions to another level (Workout Tracker)** Track real-time exercise data while watching your favorite shows. Your TV can display feedback from your exercise devices and play content on a single screen during your home workout sessions.

Available from March 2024. Supported devices are Galaxy Watch 4 and above with Galaxy Mobile (One UI 4.1.1 and above) with latest software version. Devices must be logged into the same Samsung account.

- **TV and soundbar play together in smooth harmony (Q-Symphony)** Surround yourself with beautifully orchestrated sound. Samsung technology syncs the TV and soundbar audio to play simultaneously — without muting the speakers of either device.

Check for Q-Symphony compatibility on soundbar product specifications. Soundbar sold separately. The location and number of speakers may vary depending on the model.

- **Immersive virtual sound that tracks the action (OTS Lite)** 3D surround sound with our virtual top channel audio allows you to be immersed in the audio experience.
- **Enjoy sound optimized to your content (Adaptive Sound)** Adaptive Sound has audio scenic intelligence that optimizes sound based on real-time scene analysis by content type.
- **Save energy with intelligent analysis (AI Energy Mode)** Energy saving made easy with SmartThings. By turning on AI Energy Mode, it auto detects surrounding light levels and analyzes usage behaviors to adjust the brightness. Also, it analyzes the content scene-by-scene to subtly adjust brightness where possible, to manage energy consumption.

Energy saving rate may vary by region, model, size, viewing conditions and type of content. Products shipped in Eco Mode have some AI Energy Mode functions enabled by default, so energy saving levels when AI Energy Mode is turned on may appear lower compared to Standard Mode. AI Energy Mode does not work with Game Mode. Energy savings are based on internal test results and may vary depending on the content being displayed and surrounding brightness levels. Any changes in appearance and design specifications that do not affect product performance may occur without prior notice. UI, content and services may vary by region and are subject to change without notice.

Specifications

Overview

- **Resolution:** 4K (3,840 x 2,160)
- **Hdmi:** 3
- **Usb:** 1 x USB-A

Product Type

- **Type:** LED

Display

- **Screen Size:** 85"
- **Refresh Rate:** 50Hz
- **Resolution:** 4K (3,840 x 2,160)

Video

- **Picture Engine:** Crystal Processor 4K
- **Hdr High Dynamic Range:** HDR
- **Hdr 10 Plus:** Support
- **Contrast:** Mega Contrast
- **Micro Dimming:** UHD Dimming
- **Contrast Enhancer:** Yes
- **Motion Technology:** Motion Xcelerator
- **Ai Upscale:** 4K Upscaling
- **Color Booster:** Yes
- **Filmmaker Mode Fmm:** Yes

Audio

- **Object Tracking Sound:** OTS Lite
- **Q Symphony:** Yes
- **Sound Output Rms:** 20W
- **Speaker Type:** 2CH
- **Adaptive Sound:** Yes

Smart Service

- **Operating System:** Tizen™ Smart TV
- **Bixby:** Yes (Voice Ready)
- **Samsung Tv Plus:** No (SA,AE,EG only)
- **Web Browser:** Yes
- **Smartthings Hub Matter Hub Iot Sensor Functionality Quick Remote:** Yes

- **Multi Device Experience:** Mobile to TV, Sound Mirroring, Wireless TV On
- **Apple Airplay:** Yes (w/o Syrian Arab Republic, Yemen)
- **Daily Plus:** Yes
- **Storage Share:** Yes

Game Feature

- **Auto Game Mode Allm:** Yes
- **Vrr:** Yes
- **Hgig:** Yes

Tuner Broadcasting

- **Digital Broadcasting:** DVB-T2CS2
- **Analog Tuner:** Yes
- **Tv Key Support:** Yes

Connectivity

- **Wi Fi:** Yes (Wi-Fi 5)
- **Bluetooth:** Yes(5.3)
- **Hdmi:** 3
- **Hdmi High Frame Rate:** 4K 60Hz (for HDMI 1/2/3)
- **Hdmi Audio Return Channel:** eARC/ARC
- **Anynet Plus Hdmi Cec:** Yes
- **Usb:** 1 x USB-A
- **Ethernet Lan:** 1
- **Rf In Terrestrial Cable Input:** 1/1(Common Use for Terrestrial)/1

Design

- **Design:** Metal Stream
- **Bezel Type:** 3 Bezel-less
- **Front Color:** BLACK
- **Stand Type:** BASIC FEET
- **Stand Color:** BLACK

Additional Feature

- **Embedded Pop:** Yes
- **Epg:** Yes
- **Ip Control:** Yes
- **Osd Language:** Local Languages

Accessibility

- **Voice Guide:** English (UK),French (France),Hindi (India),Korean (Korea),Russian (Russia)
- **Low Vision Support:** Audio Description, Zoom Menu and Text, High Contrast, SeeColors, Color Inversion, Grayscale, Auto Picture Off
- **Hearing Impaired Support:** Closed Caption (Subtitle), Multi-output Audio, Sign Language Zoom
- **Motor Impaired Support:** Slow Button Repeat, Remote Control App. for All

Power Eco Solution

- **Power Supply:** AC100-240V~ 50/60Hz
- **Eco Sensor:** Yes
- **Auto Power Off:** Yes
- **Auto Power Saving:** Yes

Dimension

- **Package Size Wxhxd Mm:** 2075 x 1200 x 171 mm

- **Set Size With Stand Wxhxd Mm:** 1889.9 x 1132.8 x 326 mm
- **Set Size Without Stand Wxhxd Mm:** 1889.9 x 1083.5 x 77 mm
- **Stand Basic Wxd Mm:** 1411 x 326 mm
- **Stand Minimum Wxd Mm:** 954 x 326 mm
- **Vesa Spec Mm:** 400 x 300 mm

Accessory

- **Remote Controller Model:** TM2240A
- **Full Motion Slim Wall Mount Y22:** Yes
- **Webcam Support:** Yes
- **Zigbee Thread Module:** Dongle Support
- **User Manual:** Yes
- **Power Cable:** Yes

Reviews

1. Having an 85-inch screen completely transforms the living room into a theater. The MetalStream design is gorgeous and feels incredibly premium; the bezels are so razor-thin that it's practically all glass. The Crystal Processor 4K handles everyday streaming and live sports flawlessly with great upscaling. (5 stars, posted 2 weeks ago)
2. The ecosystem integration on this model is brilliant. I love using Multi Control to jump effortlessly between screens, and being able to sync my Galaxy Watch to check real-time stats on the Workout Tracker while a show is playing is incredibly convenient. The picture depth is surprisingly good for a standard LED thanks to the Contrast Enhancer. (5 stars, posted a month ago)
3. Massive display for a very reasonable price compared to the higher-end lineups. Colors are bright and punchy with PurColor, and the One UI Tizen software is incredibly fast and intuitive. The built-in 20W speakers are decent for everyday viewing with Adaptive Sound, but a screen this massive definitely deserves to be paired with a dedicated soundbar. (4 stars, posted 2 months ago)
