

Side-by-Side Refrigerator Twist Ice Maker 655L

Price: Rs. 445,999.00 (Original Price: Rs. 525,999.00 - Save Rs. 80,000.00)

Features

- **Save energy intelligently (AI Energy Mode)** Reduce your energy use by up to 10% with AI Energy mode in SmartThings Energy. If your estimated energy usage exceeds your preset target, it gives you an option to save energy. It intelligently adjusts the compressor speed and defrost cycle, based on your usage pattern and surroundings. Based on internal testing. The test results are based on a comparison of the factory setting temperature when using AI Energy mode and without using AI Energy mode. Results may vary depending on the usage conditions and patterns. Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required. SmartThings will display a notification before activating the saving algorithm in both 'Maximum mode' and 'Custom mode'.
- **Control anywhere (Wi-Fi Embedded)** Monitor and manage your refrigerator anytime, anywhere. Its embedded Wi-Fi lets you track and adjust its performance using the SmartThings App. You can easily control the cooling mode, change the temperature and get alerts if the door is left open. It will also detect and help diagnose issues. Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required.
- **More space inside (Large Capacity with SpaceMax™)** Store plenty of food in a spacious 635 liter interior. SpaceMax™ technology makes the walls much thinner. So it creates more usable storage space without increasing the external dimensions or compromising energy efficiency. The flat cooling duct in the rear wall also reduces 'dead space'. The 635L capacity is based on the two-door Water & Ice dispenser model and the capacity may vary according to refrigerator type. Compared to Samsung conventional models without SpaceMax™ technology.
- **Intelligently efficient, keeps food fresh (AI Hybrid Cooling)** Save energy and enjoy lasting freshness. AI Hybrid Cooling's 13cc compressor and Peltier element work separately or together to enhance efficiency. It also learns and adjusts its performance to suit your usage patterns. And it maintains a constant temperature to preserve food for a long time. Based on internal testing. AI Hybrid Cooling's precise temperature control ensures that the temperature variation is only $\pm 0.3^{\circ}\text{C}$, compared to a conventional system that varies by $\pm 0.5^{\circ}\text{C}$. When defrosting the internal temperature only increases by 1°C , compared to a conventional system that increases by $+3^{\circ}\text{C}$.
- **Moist freshness (Twin Cooling Plus™)** Ensure food stays moist and fresh for longer. Twin Cooling Plus™ adjusts the temperature and humidity in the fridge and freezer using independent evaporators, fans and vents. It preserves food in the ideal conditions and protects its flavor by preventing odors from mixing between compartments. Based on internal testing, compared to a Samsung refrigerator without Twin Cooling Plus™.
- **Cools evenly all over (All-around Cooling)** Make sure food is properly cooled – wherever it is. All-around Cooling cools each compartment evenly from corner to corner, so everything is kept at the right temperature. It continually checks the temperature and circulates cool air everywhere in the fridge through strategically placed vents. Based on internal testing.

- **Keeps food fresh (Metal Cooling (Optional))** Maintain a stable temperature inside the fridge, so food stays fresh, even if you frequently open and close the door. The Metal Cooling duct in the rear wall retains the cold from the air and helps to restore any heat loss quickly. And it also adds a premium look and is easy to wipe clean.
- **Fast cool & freezing (Power Cool / Power Freeze)** Enjoy a rapid cooling performance. At the touch of a button, Power Cool blows intensely cold air into the fridge to quickly cool your groceries or favorite drinks. Power Freeze delivers a fast blast of cold air into the freezer. It is great for freezing or firming up frozen food and making ice.
- **5 conversion modes (Smart Conversion™ (Optional))** Enjoy the convenience of flexible storage with the Smart Conversion™ feature. Using Twin Cooling technology, you can switch between 5 modes. Simply convert the freezer into a fridge to store more fresh food. Switch the fridge or freezer off to save energy. Or use the freezer as a small fridge. Only available on certain models with Twin Cooling Plus™. When the refrigeration or freezing functions are in off mode, the temperature of the fridge or freezer remains under 15°C to prevent mold and odors, using low electricity. The fridge or freezer cannot be powered off independently. **DO NOT STORE FOOD OR BEVERAGES IN THE REFRIGERATOR WHEN THE REFRIGERATION OR FREEZING FUNCTIONS ARE IN OFF MODE. 15°C IS NOT COOL ENOUGH TO PREVENT SPOILAGE.**
- **Efficient energy use. Smart savings. (SmartThings Energy)** Manage your energy usage anytime. SmartThings Energy provides helpful tips on how to be energy efficient. It also lets you monitor the energy consumption of appliances in real time and compare it to the previous month. And you can get alerts if your monthly targets are likely to be exceeded. Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required. SmartThings Energy works with appliances that have Wi-Fi connectivity, which currently includes washers, dryers, dishwashers, air conditioners, air purifiers, vacuum cleaners, ovens, hoods, cooktops, microwaves, TVs and energy meters. Based on internal testing.
- **Smart maintenance. Easy upkeep. (SmartThings Home Care)** Monitor and take care of the refrigerator easily. SmartThings Home Care provides real-time monitoring and alerts. You can check its status, including the condition of the water filter. It also automatically notifies you if parts need replacing or problems are detected, and suggests a solution. Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required.
- **Smart cooking. Tasty food. (SmartThings Food)** Manage, prepare and buy food effectively. SmartThings Food lets you create a list of the food in your refrigerator and manage expiry dates, so you can check what you have anytime, anywhere. It also recommends personalized recipes based on your dietary preferences and existing ingredients. Available on Android and iOS devices. A Wi-Fi connection and a Samsung account are required.
- **Consistent efficiency ([Global except US] AI Inverter Compressor)** Keep food consistently cool and save energy. The AI Inverter Compressor's improved structure increases its inertia by 4.1x, so it uses less energy than before. Using an AI algorithm, it adjusts its speed to suit the user's usage patterns and save energy. The compressor has a 10 year warranty. Based on internal testing, verified by UL Solutions, a global independent safety science company. At 1100 rpm, which is the main operating range of the refrigerator compressor, the energy efficiency ratio (EER) of the compressor was improved by up to 15% compared to Samsung's existing compressor (F9). Results may vary depending on the actual usage conditions. Only available on the machine learning model products equipped with AI algorithms. As of

December 2024, the AI Compressor is applied to the RM90F/36, RF80F/36, RF70F/36, RF90F/36, RF70F/36, RS90F/36, RB7300, RB6000D, BRB6500D, RT7000K, RT6500D, RT7300D, RT6300F projects. The applicable models may vary. The energy saving rate based on the AI algorithm is estimated to be 7-11% and varies by model. To utilize the AI function of the AI inverter compressor, the AI Energy mode needs to be activated on the SmartThings App, which also requires a Wi-Fi connection and a Samsung account. 10 year warranty is limited to the compressor only.

- **Quietly efficient (Digital Inverter Compressor (10 year warranty))** Enjoy great energy efficiency, little noise and a long-lasting performance. The Digital Inverter Compressor automatically adjusts its speed in response to cooling demand. So it's quiet, uses power efficiently and keeps working for a long time, backed-up by a 10 year warranty on the compressor. 10 year warranty is limited to the compressor only.
- **Install anywhere (Water & Ice Dispenser (Non-plumbing))** Install the refrigerator anywhere without time-consuming plumbing or untidy pipes. It has a large 4.5 liter, BPA free water tank for its Non-plumbing Water & Ice Dispenser. So it can be installed in almost any location. And there's no need to change the water filter regularly, saving you time. Bisphenol A (BPA) is found in polycarbonate plastics and epoxy resins, which are often used in food and beverage containers, and has been linked with possible adverse health effects.
- **Ice and water on tap (Water & Ice Dispenser (Plumbing))** Enjoy cool drinks or ice without the hassle of refilling a water tank. It has a Plumbed Water & Ice Dispenser integrated into the front, which can be easily connected to a water supply. So, with a simple touch, you can get a glass of chilled water or plenty of ice to cool drinks, like juices.
- **Store vegetables (Big Vegi Box)** Stop struggling to find space for the things you use every day. The large capacity Big Vegi Box provides a convenient space to store a large amount of fresh vegetables and fruit. It makes it easy to find everything you eat regularly. They are all in one place, without taking up kitchen space.

Specifications

Overview

- **Net Total Liter:** 655 ℓ
- **Net Width Mm:** 912 mm
- **Net Case Height With Hinge Mm:** 1786 mm
- **Net Depth With Door Handle Mm:** 716 mm
- **Net Weight Kg:** 99 kg
- **Cooling Type:** Mono Cooling
- **Number Of Shelf Total:** 4 EA

Capacity

- **Net Total Liter:** 655 ℓ
- **Net For Freezer Liter:** 237 ℓ
- **Net For Fridge Liter:** 418 ℓ

Physical Specification

- **Net Width Mm:** 912 mm
- **Net Case Height With Hinge Mm:** 1786 mm
- **Net Case Height Without Hinge Mm:** 1744 mm
- **Net Depth With Door Handle Mm:** 716 mm
- **Net Depth Without Door Handle Mm:** 716 mm
- **Net Depth Without Door Mm:** 610 mm
- **Packing Width Mm:** 974 mm
- **Packing Height Mm:** 1909 mm
- **Packing Depth Mm:** 776 mm
- **Net Weight Kg:** 99 kg
- **Packing Weight Kg:** 106 kg

Cooling Feature

- **Power Cool Function:** Yes
- **Power Freeze Function:** Yes
- **Cooling Type:** Mono Cooling

Refrigerator Feature

- **Number Of Shelf Total:** 4 EA
- **Number Of Door Pocket:** 5 EA
- **Egg Container Egg Tray:** Yes
- **Interior Led Light:** Top LED
- **Shelf Material:** Tempered Glass
- **Number Of Vegetable Fruit Drawer:** 2 EA

Freezer Feature

- **Number Of Door Pocket:** 5 EA
- **Icemaker:** Twist I/M
- **Interior Led Light:** Top LED
- **Number Of Drawer:** 2 EA

General Feature

- **Refrigerant:** R-600a
- **Autonomy Hour Temp Rising:** 6 h
- **Compressor:** AI Inverter Compressor

Exterior Feature

- **Display Type:** Internal (Simple UX)
- **Door Handle:** Recess
- **Color:** BLACK DOI

Performance

- **Energy Efficiency Class:** E
- **Noise Level:** 36 dBA
- **Climate Class:** SN, N ,ST, T

- **Cooling Capacity Kg 24H:** 15 kg/24hr
- **Energy Consumption:** 351 kWh/year

Smart

- **Wifi Embedded:** Yes
- **Camera:** No
- **Mobile Bixby:** Yes
- **Set Bixby Mic:** No
- **Speaker:** No
- **Bluetooth:** No

App Connectivity

- **Smartthings App Support:** Yes

Reviews

1. The massive 655L capacity combined with the SpaceMax technology means I can easily fit a month's worth of groceries without everything feeling crammed. The Power Cool feature is an absolute lifesaver during the peak Lahore summers, chilling our drinks in just minutes. The Black DOI finish also looks incredibly premium in the kitchen. (5 stars, posted 3 weeks ago)
2. I have noticed a real difference in my electricity bill since enabling the AI Energy Mode through the SmartThings app. The app even alerts me if the door is accidentally left open, which is great. I was initially looking for a plumbed ice maker, but the twist ice maker works flawlessly and means I didn't have to hire a plumber to install it. (4 stars, posted 2 months ago)
3. Super quiet operation thanks to the AI Inverter Compressor—I can barely hear it running even when the kitchen is completely silent. The Big Vegi Box easily holds all our fresh produce for the week, and the cooling is perfectly even across all shelves. Highly recommended for large families! (5 stars, posted 4 months ago)
